ROSE HILL NURSERY

Nurserymen Landscape Architects

MINNEAPOLIS AND ST. PAUL

SINCE 1874

NURSERY OFFICE HOURS

The office is open from 8:00 A.M. to 5:30 P.M. To accommodate customers who cannot call at the nursery during the regular hours, a small force is on hand until dark during April 10th to June 1st.

TWIN CITY DELIVERIES

Twin City orders amounting to \$1.50 or over are delivered free, otherwise a charge of 50c will be made to cover cost of delivery.

POSTAGE REQUIRED FOR ORDERS WANTED BY PARCEL POST

If shipment is desired by parcel post please include an amount to cover postage and packing. Please note average weights indicated at the headings of the various kinds of stock and compute the amount from the parcel post rates given on page 37.

PLEASE REMIT BY DRAFT, MONEY ORDER OR CHECK

On checks drawn on banks outside the Twin Cities, please add 10 cents collection charge.

SELECT YOUR OWN PLANTS

Our customers are welcome to select trees without extra charge in our 100 acre nursery. There is satisfaction in selecting your own trees where there are thousands of shade trees and evergreens to choose from. If you cannot do so, however, we will make careful selection for you.

Direct from the grower you are assured fresh, healthy plants that have not been weakened by exposure in stores or sales grounds.

BENEFITS OF ORDERING EARLY

If customers will kindly place their orders as early as possible the best selection of stock and prompt delivery of the goods when planting time arrives will be assured them.

FREE PLANTING BOOKLETS

A booklet giving instructions for the planting and care of nursery stock accompanies each order. Purchasers of grass seed should ask for the booklet "How to make a lawn."

THE PLANTING SEASONS

Planting may be done in the spring, generally about April 1st to June 1st, or in the fall from September until the ground freezes solid.

PLANTING CHARGES

When planting is done by us in the Twin Cities and their suburbs, the following planting charges are made: 45 per cent of the cost of trees, shrubs and perennials.

30 per cent of the cost of evergreens. 15 cents per lineal foot for hedges.

The minimum planting charge on any order is \$2.00. \$2.00 per yard for rich planting soil, if needed, where two vards or more are wanted.

\$2.50 per yard if only one yard is needed.

Carting away of poor soil or debris is charged for at a reasonable rate, depending upon the quantity.

EXPERIENCED GARDENERS

From June 1st to October 1st we have available experienced men for trimming hedges and shrubs and for general garden work.

Rose Hill Guarantee

We use every precaution in the growing and handling of our stock to supply only plants of highest quality full of life and vigor. However, the Rose Hill Nursery agrees to replace at one-half the original price, any nursery stock purchased direct from them at the prices listed in this catalog, that dies before October first following planting. Prompt payment of accounts must be made in full and report made by Oct. 10th following planting or the above guarantee is void.

Visit Our Nursery

Here at Rose Hill Nursery you will find a hundred acres of the highest quality trees, shrubs, evergreens and hardy perennial flowers. These plants are grown for discriminating customers, who want the best of stock grown in the north to assure hardiness.

There are acres of evergreens you will enjoy seeing as well as shade trees, flowers and ornamental shrubs. At tulip time, along the entrance drive, thousands of tulip blooms delight the eye and later peonies and other perennials are blooming in profusion.

Come and visit us-you are most welcome.

Entrance Drive To The Office At Tulip Time

HOW TO REACH THE ROSE HILL NURSERY

From MINNEAPOLIS, by auto, drive out East Hennepin Ave., directly to the Nursery, which is located two blocks east of the city limits.

From Minneapolis, by streetcar, take Como-Harriet car going towards St. Paul, get off at Eustis Street and walk three blocks north.

From ST. PAUL, by auto, drive north on Snelling Ave. past Fair Grounds one-quarter mile to Larpenteur Ave. (also known as County Road A), turn west (left) one and one-half miles to our

From St. Paul, by streetcar, take Como-Harriet streetcar going west, get off at Eustis Street and walk three blocks north.

High Quality Lawn Grass Seed

When purchasing grass seed, ask for the book-, "HOW TO MAKE A LAWN." It tells how to make a lawn and how to take care of it.

The production of grass seed mixtures has, through intense study, become highly specialized. Rose Hill Nursery offers lawn seed which is composed of a mixture, in correct proportions, of the grasses that have proven most satisfactory for this section. Only the highest quality seed of the various kinds is used; for the difference in cost between the very best seed and cheap seed is so little, and the difference in results from their use is so great. In grass seed it is false economy to buy anything but the best seed.

5 lbs.....\$2.25

Use 1 pound to 200 square feet of new lawn area to be seeded.

POSTAGE—Please include payment for postage if seed is desired by parcel post. See parcel post rates on page 37.

ROSE HILL LAWN SEED

The combination of seeds used in this mixture is the result of our many years of creating beautiful home grounds. Though the highest grade Kentucky Blue Grass forms the basis of this mixture, because Blue Grass makes the finest Minnesota lawns, other grasses are used to hasten the lawn and act as a nurse crop to the blue grass seed, which is slow to germinate. No better lawn seed can be bought at any price and we highly recommend it to you as a mixture which will produce a beautiful, thrifty lawn in the shortest possible time. 1 lb.......\$0.45 3 lbs.....\$1.30 5 lbs.....\$2.00 10 lbs. \$3.90 20 lbs. \$7.00

ROSE HILL SHADY PLACE SEED

This mixture has been especially developed to produce a lawn in fairly dense shade. Under evergreens and low branched trees, where no sun ever strikes, no grass can possibly survive, but where the shade is not too dense this mixture will prove satisfactory.

3 lbs.....\$1.40 ROSE HILL WHITE CLOVER

White clover foliage gives an appearance of richness to the lawn and the flowers find favor with many persons. May be seeded into established lawns to encourage a more luxuriant-appearing growth.

ROSE HILL FERTILIZER

Rose Hill Fertilizer is scientifically manufactured to be used in gardens, for feeding trees and on the lawn in the North Central states. It is odorless and pleasant to handle. Persons, who are wise in fertilizer buying, judge the value of the fertilizer by the chemical analysis, which law requires be printed on every package of fertilizer. Rose Hill Fertilizer ranks among the very best in plant food value. The guaranteed analysis is Nitrogen 6%, Available Phosphoric Acid 10% and water soluble Potash 4%. Lawns especially require Nitrogen for luxurious growth. Being highly concentrated a small quantity of Rose Hill Fertilizer covers a large area.

All vegetation is benefited by the intelligent application of a fertilizer because it supplies the soil with available plant food. Such application is followed by profit in the form of finer lawns, trees,

shrubs, flowers and fruit.

Use 1 pound to each 35 square feet or 100 pounds to each 3,500 square feet. See diagram on page 15 for proper amounts and method of use for feeding trees. Complete directions for applying accompany each bag of fertilizer.

100 1	b. bo	g	\$3.50	50	lb.	bag	. \$1.85
		g		10	lb.	bag	50

VIGORO

A Nationally-known Fertilizer Use 100 lbs. of Vigoro to 2,500 sq. ft.

100-lb. bag \$4.00 50-lb. bag \$2.50 25-lb. bag \$1.50

RICH PLANTING SOIL

Excellent planting soil delivered in the Twin Cities or suburbs at \$2.50 per single yard or \$2.00 per yard when two yards or more are purchased. Per sack, one bushel, \$0.50.

Lawn dressing soil \$2.75 per single yard, \$2.50 per yard for

two yards or more.

PULVERIZED PEAT MOSS

A splendid material to spade into soils to make them in better condition for plant growth. Peat causes a clay soil to become more friable and holds moisture in sandy soils. Used as a mulch about plants or as a top dressing for lawns it helps greatly to conserve moisture. Odorless and pleasant to handle.

2 bushels \$1.00

Planting Gave the Magic

Jouch that Made this House a Home

The Modern Way To Plant The Home Grounds

PLANTING SHOULD BLEND THE HOUSE WITH THE GROUNDS

Most houses appear bare and cold without the softening influence of planting about the house foundation. Use graceful flowering shrubs and other plants to take away the abrupt and harsh separation of house and grounds. The fragrance of flowers, the color and texture of foliage, the contrast of twig and berry are but part of the beauty you will enjoy from plants in the foundation planting.

It is in good taste to leave the front yard open to the public view and to make this portion of your grounds so attractive that it makes a pleasing impression on the

passerby.

For the utmost in attractiveness in this area, plan to have an open stretch of well kept lawn framed on either side by plantings of evergreens and shrubs placed in pleasing arrangement. Plant trees for shade and to frame the view of your house.

EVERY HOME SHOULD HAVE AN OUTDOOR LIVING ROOM

In place of an open rear yard within the view of everyone you should plan a private outdoor living room. Here you can enjoy the sunshine, and work among your shrubbery and gay flowers out of the sight of prying eyes. Let the turf provide a green carpet; plant beautiful trees, shrubs and evergreens to make the walls which set the room apart and screen it from view. Plant hardy perennial flowers along the borders to provide fragrance and color. Then locate a few trees to provide comfortable shade and fruit. Altogether you will have a room as delightful as anyone could dream, a room which will give you countless hours of enjoyment and satisfaction.

GOVERNMENT INSURED LOANS ARE AVAILABLE FOR HOME YARD BEAUTIFICATION

Low interest F.H.A. loans are available for planting the home grounds. Convenient monthly payments may be arranged to suit the income of the borrower.

If your bank does not make F.H.A. loans, apply to the F.H.A. office nearest you or write the Federal Housing Administration, Washington, D. C., for a list of financial institutions near you, who do make such loans.

OUR LANDSCAPE SERVICE TO CUSTOMERS OF THE TWIN CITIES AND SUBURBS

To local customers, where personal consultation is possible, plans and estimates are furnished without charge.

Upon request, one of our landscape architects will call and consult with you. Your grounds are carefully studied and if you wish certain varieties of plants used in the planting, these are borne in mind. In many cases planting suggestions and costs can be given during the call. However, if necessary, a plan and estimate is prepared and presented to you for your consideration.

Or if you prefer, you may bring a picture of your house or measurements of that part of your grounds you wish us to plan for and we will help you at the office. Besides doing the planning and furnishing the stock, our service is complete in that we do the planting, too, if you wish. Phone Nestor 7541 from either Minneapolis or St. Paul.

HOW WE SERVE OUT-OF-TOWN CUSTOMERS BY MAIL OR PERSONAL CALL

We otter a helpful mail advisory service to out-of-town customers. Upon request we will mail a chart, illustrating what information is required to enable our architects to intelligently help you. When you send us the necessary information we will suggest how best to make your property most attractive.

In the developing of larger residence properties, grounds about public buildings, parks or cemeteries, a personal call by one of our landscape architects is often advantageous. Our architects are available for such calls and we will gladly give full information regarding the cost of their services upon request.

Competent foremen are available to out-of-town residents who desire our supervision in the carrying out of a landscape development.

The Best of All Gifts-A ROSE HILL GIFT CERTIFICATE

What more delightful gift for Mother's Day, Birthday, Christmas or other occasion could be given than a gift of a beautiful Colorado Blue Spruce, a Red Leaved Maple, lovely new French Lilacs, Everblooming Rose Bushes, Peonies or Phlox. Such a gift grows in beauty and value; each year the memory of the giver is cherished more and more as time goes on.

Give a ROSE HILL CERTIFICATE for any article you may choose or for a certain amount, the selection to be left to the one receiving the gift. The following pages in this catalog offer a wide variety to choose from.

A List of the Persons whose Homes we have beautified during our Sixty-seven Years of Service would constitute a veritable Blue Book of this section. Thousands of beautiful home grounds have been created.

2615 Park Ave., Minneapolis, Planted by Rose Hill Nursery

Rose Hill Evergreens Are Famous for Their Beauty

PLEASE NOTE-Excepting the small sizes which may be shipped by express, balled evergreens are best shipped by freight or truck line. Twin City orders delivered free.

Juniper, Pfitzer's

ROSE HILL NURSERY

Evergreens

PRICES INCLUDE BALLING AND BURLAPPING OF ALL EVERGREENS

THIS means that the tree is dug from the soil with the earth remaining undisturbed about the roots of the tree. The ball of earth is securely fastened with burlap. This method practically insures safe transplanting.

In some varieties we have larger sizes than listed, upon which we will be glad to quote prices.

ARBORVITAE, American. (Thuya Occidentalis.) A native	ever-
green. Usually grows bushy at the bottom, tapering	
the top. Color a rich dark green. Very decorative sin	
in groups. Will grow in partial shade. During very dry	years
this variety is often severely injured by drought.	
2 40 2 64 52 50 4 40 5 64	\$6.00

2 to 3 ft. \$2.50 4 to 5 ft. \$6.00 3 to 4 ft. 4.00

ARBORVITAE, Pyramidal. (Thuya Occidentalis Pyramidalis.) A popular evergreen, being of compact, shapely, pyramidal habit. The foliage is a most attractive, bright green. Fine for use at the house entrance or elsewhere about the foundation where a narrow growing evergreen is wanted. Delightful also in other situations about the grounds where an evergreen of this form is desired.

Juniper, Silver Cedar (Grafted)

NOTE-ALL **EVERGREENS** OFFERED ARE BALLED AND BURLAPPED

Mugho Pine

JUNIPER, Silver Cedar, (Grafted). (Juniperus Scopulorum.) This grafted type is far superior to the ordinary Silver Cedar grown from seed because they are uniform in color and symmetrical in shape. This are uniform in color and symmetrical in shape. This attractive evergreen is a bright silver blue in color which is most pronounced during hot, dry weather. It is a fine substitute for the Pyramidal Arborvitae where that tree does not thrive, being narrow, symmetrical and compact. It is not subject to breakage from heavy snows. The selected type we offer insures an even silvery blue color and uniform growth. This evergreen holds its blue color during the winter and is truly beautiful the year around. During extremely dry years when all varieties of Arborvitae as well as most other evergreens suffer serious losses, the Silver Cedar has stood both the dry and cold weather without injury. There is no better tree to plant as a substitute for Pyramidal Arborvitae, for it is hardy, does not discolor in winter, is compact in growth and dependable. See picture bottom

of page	naable. See picture bottom
2 to 21/2 ft\$5.00	4 to 5 ft\$ 9.00
21/2 to 3 ft 6.00	5 to 6 ft 12.00

31/2 to 4 ft 8.00	7 to 8 ft 16.00

JUNIPER, Silver, (Not Grafted.) (Juniperus Scopulorum.) is an evergreen which in its native state extends over a wide range in Western United States. There is a wide variawide range in Western United States. There is a wide variation in color, form and texture of foliage. As they are not grafted, they do not have the same uniformity of growth or color as the above grafted Silver Cedar. The tree much resembles the Red Cedar but instead of being green during summer, the foliage has varying shades of blue. 2 to $2\frac{1}{2}$ to 3 ft. 4.50 5 to 5 ft. \$8.00 $2\frac{1}{2}$ to 3 ft. 4.50 5 to 6 ft. 10.00 3 to 4 ft. 6.00 6 to 7 ft. 12.00

JUNIPER, Von Ehron. (Juniperus Sabina Von Ehron.) This is a rather low, spreading evergreen. The growth is rapid and the branches are semi upright after the fashion of the Savin Juniper, but grows taller. It has a deep, rich color and a picturesque appearance created by its informal manner of growth. Useful in front of taller evergreens.

24 to 30 in. spread. \$4.00 30 to 36 in. spread. \$5.00

EVERGREEN PLANTING SUGGESTIONS

A FRONT ENTRANCE PLANTING

At the front entrance the tall At the front entrance the tall Silver Cedars or the Red Cedars or emost appropriate. The low Mugho Pines next to the steps contrast nicely in color and form, as do also the Juniper Savin which complete the groups.

A FRONT SIDEWALK PLANTING

A Mugho Pine at each side at top of steps with two Savin Junipers below gives a very pleasing effect. On narrow lots the Mugho Pines may be used alone.

Arborvitae Pyramidal

Black Hills Spruce

ROSE HILL NURSERY

Colorado Blue Spruce

PINE, Austrian. (**Pinus Nigra.**) One of the most beautiful of the taller growing pines. The tree is most broad at the base, tapering toward the top and always presents a neat appearance. Its needles are a rich, deep green color four to five inches long. Perfectly hardy and a dependable grower. Fine to use in landscape plantings where a larger evergreen is wanted. See picture.

18	to	24	in	\$1.75	4	to	5	ft\$	6.00

Evergreens can be trimmed and they should be in many cases. Late May or June is as good a time as any, though the pruning may be done at any time of the year.

Such varieties as the Cedars or Juniper, when planted near the house, should be sheared at least once a year to keep them narrow in form and also to keep the foliage dense.

How often one sees Mugho Pines grown straggly and unkempt because of the lack of a little judicious trimming. Normally each branch will make a shoot, or candle-like growth, of from three to six inches long. Just about the time this candle-like spike has started to put forth the new leaves, or needles, is a good time to trim. In Minnesota this will usually be in early June. Two-thirds or so of this spike should be cut off with a knife or pruning shears to keep the pine densely clothed with foliage and shapely. If this is not done, a loose habit of growth may

If necessary to prune severely, because of neglect, branches a foot or so in length may be cut out here and there to regain symmetry. These noticeable cuts will be covered by the new growth during the ensuing season.

The low growing Junipers, as Pfitzers and Savins, should be trimmed at the ends of the branches from time to time to prevent their growing too wide. This is especially necessary when they are planted in the foundation planting.

Spruce trees yield readily to pruning also. Generally, however, the spruce trees secured from a reliable nursery are well shaped to start with and little or no trimming is required. Should an occasional branch assume an awkward growth, no hesitancy should be felt about pruning it to shape the tree better. Cut close to one of the buds developing to produce foliage the next year, in order to hide the cut as soon as possible.

EVERGREEN PLANTING SUGGESTIONS

FOR CORNER OF HOUSE

Here either the Silver Cedar or the Red Cedar provides the needed height. With a Montana Pine at each side, and either a Pfitzer or a Savin Junibetween these two, the effect is harmonious.

A REFINED MONUMENT PLANTING

A Silver Cedar at each end of the monument with a Juniper Savin in front and in back presents a dignified and refined appearance.

Low Mugho Pines may be used instead of the Savin Junipers, if pre-

ferred

Austrian Pine

Red Cedar

Decorative Shrubs

Fresh, Vigorous Plants-Sure to Grow

What delightful memories children will have of a yard like this

FLOWERING shrubs create natural beauty and loveliness and are indispensable to the landscape gardener.

Please note what an important part shrubs play in the landscape design to the left.

Against the house foundation the shrubs blend the house with the grounds and create a lovely softening effect. On both sides of the property and across the rear, shrubs contribute a delightful frame to the picture. They also give privacy and a beautiful background for annual and perennial flowers, besides their own beauty of flowers, berries and varying foliage colors.

Our large list of hardy varieties contains all the worth-while shrubs adapted to the rigorous climate of this section of the country. By thoughtful selection continuous interest may be obtained from early spring until late fall through successive blooming periods.

Heights of shrubs following the name denote size at which the plants present their maximum beauty.

ALMOND, Flowering. (Amygdalus.) 4 to 5 ft. Small, pink double flowers along stems in May. Needs winter protection. Though we have Flowering Almonds for sale, we suggest to our customers that the Flowering Plum be used instead. Flowering Almonds, except the Siberian Almond, are not strictly hardy in Minnesota while the plums are. They resemble one another closely.

ALMOND, Siberian. (Amygdalus Siberica.) 2 to 3 ft. This new variety of Almond is of dwarf growth, perfectly hardy without winter protection. The bush is completely covered with double, bright rose pink fragrant flowers early in the spring, about two weeks before the common flowering almond. The leaves turn to gold and red in the fall creating a beautiful appearance at that time also. Very desirable.

POSTAGE

If shipment is wanted by parcel post please add for postage and packing, figuring average weights for shrubs as follows: 12 to 18 in. shrub, 1 lb.; 18 to 24 in. shrub, 2 lbs.; 2 to 3 ft. shrub, 3 lbs.; 3 to 4 ft. shrub, 4 lbs. See parcel post rates on page 37.

ARALIA, Devil's Walking Stick. (Aralia Spinosa.) 8 to 10 ft. Attractive, tall-growing shrub with very prickly stems and large, deeply cut compound leaves 3 to 5 feet long. Tropical in appearance. Plant in protected locations. See cut page 9. 2 to 3 ft. \$0.75 ea. 3 to 4 ft. \$1.00 ea.

ARROWWOOD. (Viburnum Dentatum.) 7 to 8 ft. Flowers white, flat-topped, followed by blue berries in the fall. A large symmetrical growing shrub with bright green foliage coloring prettily in the fall. An elegant shrub to use in staggered shrub plantings, where height is wanted. The clean, attractive foliage is desirable as well as the flowers and berries. Birds like to eat the berries.

18 to 24 in........\$0.40 ea. 3 to 4 ft........\$0.75 ea. 2 to 3 ft..........50 ea. 4 to 5 ft...........1.00 ea.

BUCKTHORN, Common. (Rhamnus Catharticus.) 6 to 7 ft. A very hardy shrub with dark green foliage. It will thrive in exposed locations where many other shrubs will not succeed. Valuable when planted as a shrub or when planted as a hedge.

(For Buckthorn hedge plants see page 16.)

BUCKTHORN, Glossy Leaved. (Rhamnus Frangula.) 6 to 7 ft. A handsome, tall shrub with shining dark green foliage. The yellow, inconspicuous flowers are produced all summer and are followed by red fruit, which changes to black. There are berries in all stages of development all summer. Birds are fond of these berries.

MINNEAPOLIS AND SAINT PAUL

BUTTERFLY BUSH. (Buddleia.) 4 to 5 ft. Also known as Summer Lilac, as it resembles the common Lilac in general color and effect. It dies back with the frost in the fall and the dead wood should be cut back nearly to the ground; but the roots are usually uninjured and it quickly grows to a height of 3 to 5 feet or more in the spring. It blooms continually from July to frost, bearing long, slender, arching spikes of light blue, Lilac-like flowers, which are fragrant. 2 to 3 ft.....

CARAGANA or SIBERIAN PEA TREE. (Caragana Arborescens.) 8 to 10 ft. One of our hardiest shrubs. Covered in May with bright yellow flowers, followed by long, slender pods. Will thrive in exposed trying locations, also in partial shade.

Hydrangea, Hills of Snow, with white flowers Aralia in background

CHERRY, PURPLE LEAF SAND or CISTENA. (Prunus Pumila Purpurea.) 4 to 5 ft. A fine, medium sized, upright growing shrub for color contrast in the garden. The purple foliage throughout the growing season is brightened by the red color of the new leaves at the ends of the branches. Small, single

3 to 4 ft. \$1.00 ea. 4 to 5 ft. 1.25 ea.

CHERRY, Sand. (Prunus Pumila.) 4 to 5 ft. The small, numerous white blossoms in May and purplish black fruit later make this shrub an attractive addition to the shrubbery

cotoneaster or QUINCEBERRY. (Cotoneaster Acutifolia.) 5 to 6 ft. An attractive, dense-growing shrub having shiny, dark green leaves that color beautifully in the fall. Very good for planting in the border, at the foundation or as a hedge. It is extremely hardy and can be depended on to grow where many other shrubs fail, especially in partially shaded areas. The small, inconspicuous, pink flowers are followed by blue-black berries. When food is scarce, birds feed upon these fruits

3 to 4 ft. \$0.75 ea. 4 to 5 ft 1.00 ea.

(For Cotoneaster hedge plants see page 16.)

CRAB, Bechtel's. (See page 20.)

CRANBERRY, High Bush. (Viburnum Opulus.) 6 to 7 ft. A fair-Ity large growing attractive shrub, decorative a large part of the year. The white flowers appear in flat clusters in early spring, followed by bright scarlet clusters of berries that remain until late fall, long after the leaves have fallen. The leaves turn to bright autumn colors in September or early October. As the fruit is sour, the birds feed sparingly upon it.

Lilac, French Hybrid Varieties

THESE splendid Lilacs are far superior to the common varieties, blooming much more consistently, with a greater profusion of larger flowers. The plants seldom send out sprouts around the plants as the old purple and white kinds do. They generally bloom the first year after planting. Available in a wide choice of flower colors, they constitute a most valuable group of shrubs. No home yard should be without some of these Lilacs and they are equally valuable for park use. The following varieties are among the most hardy and very best Lilacs of this class.

ALFONSE LAVALLE. The lovely, double flowers of this variety are a delightful, clear lilac color. The flowers are large and the bush a general favorite.

CHAS. JOLY. A choice double dark red Lilac. The bush is an upright grower of medium size, producing freely, large clusters of gorgeous flowers.

1AS. X. The deep reddish purple flowers of this Lilac are magnificent. The flowers are single and borne in large flower masses very profusely.

LUDWIG SPAETH. Single flowers. The red color a brilliant intense rich purple-red that holds up well in the sun and lasts a long time. Flower ponicles are long and held erect well out from the foliage. It is a profuse bloomer, commencing to bloom when only two feet high. A most wonderful Lilac, and we take pleasure in recommending it.

MADAME LEMOINE. A fine, white Lilac which contrasts beautifully with colored Lilacs. Madame LeMoine is one of the very best double white flowering bushes. Blooms in abundance on a fine, strong plant.

MARIE LE GRAYE. The large, single white flowers are borne in great profusion even when the plants are very small. It is generally acknowledged to be the best single white variety.

PRINCESS ALEXANDRA. The single white clusters are large and compact. The bush is a rapid, erect grower. Offered only in 5 to 6 ft. and 6 to 8 ft. sizes.

MAPLE, Tatarian. (Acer Tataricum Ginnala.) 8 to 9 ft. A graceful shrub-like tree with handsome foliage which turns red in autumn. The brilliance of this coloring is unsurpassed. This shrub should be in all massed shrubbery plantings.

18 to 24 in. high......\$0.35 2 to 3 ft high.......\$0.50 3 to 4 ft. "...........75

NINEBARK, Dwarf. (Physocarpus Opulifolius Nana.) 3 to 4 ft. One of the newer, dwarf, graceful shrubs. Nicely adapted to being planted close to the house or in the forepart of the shrub border. Has elegant small leaves, which color delightfully in the autumn. White flowers are borne in spring, followed by numerous attractive red pods.

18 to 24 in......\$0.50 ea. 2 to 3 ft......\$0.75 ea.

NINEBARK, Golden Leaved. (Physocarpus Aureus.) 7 to 8 ft. The golden green colored leaves are most attractive when used with other shrubs. White flowers in clusters about the middle of June. Large growing.

Double Flowering Plum, Pink flowers

Hardy Hybrid Rugosa Roses

THESE are especially valuable for growing in Minnesota on account of their hardiness. THEY NEED NO WINTER PROTECTION. Rugosa Roses are erect growing, with spiny stems and have tough crinkled foliage of a healthy green. They bloom throughout the summer and fall. Particularly useful for planting in shrubbery, in foundation planting, for hedges, along driveways, borders of properties and the like where the fragrant double flowers will be enjoyed by all. We recommend trimming them to one half their height each spring, thereby producing a larger number of new branches for more flowers and foliage.

PRICES ON THE FOLLOWING HYBRID RUGOSA ROSES

(except Hansa)

ea.	85														ft.	3	to	2

AGNES. The coppery yellow buds become amber gold upon opening. Produced freely, the blossoms are well shaped and sweetly fragrant. The only Rugosa which is truly yellow.

AMELIA GRAVEREAUX. The delightful flowers resemble the Tea Roses in their form and fragrance. They are double and rich, dark red in color. Blooms over a long period. Forms a nice vigorous bush.

BLANC DE COUBERT. With snow white blooms, double and fragrant, and arranged in large clusters. Blanc de Coubert is at its best during the summer and fall. Might be called a white Hansa, and like that variety is excellent for a hedge. Thrives in the coldest places and is the white "Eskimo Beauty." Especially pretty in half open bud.

Hansa Rugosa Rose Rich deep red flowers

CONRAD FERDINAND MEYER. An early flowering variety combining the ornamental quality of its Rugosa foliage with the blossom beauty and perfume of the Hybrid Perpetuals. Flowers large, cup-shaped and double; a delicate silvery-pink.

F. J. GROOTENDORST. The flowers are small, fringed, bright red. Produced freely throughout the growing season in large clusters. A strong-growing plant with strong, healthy foliage of splendid quality.

HANSA. This is the rose that attracts so much attention every summer. The best double red Rugosa Rose. The plant is a strong healthy grower with fine dark, rich green foliage. The flowers are of large size and are most attractive with their rich, deep red coloring, perfectly double and fragrant. See picture below.

SIR THOMAS LIPTON. An excellent pure white Rugosa Rose. Strong and vigorous, grows four feet high. Flowers are double and fragrant, borne continuously throughout the season.

MRS. ANTHONY WATERER. A new, large flowering double red Hybrid Rugosa. Blooms exceedingly fine almost continuously through the season.

Rose, Hugonis, clear yellow flowers

Hardy Bush Roses

N addition to the Hardy Hybrid Rugosa Roses the following are dependable and hardy without covering. They are quite varied in their form and have a wide appeal to those interested in roses. They are useful for planting with shrubbery and for naturalizing on banks. The flowers are delightful and the bright red fruit is very attractive during the fall and early winter. The fruits furnish about twenty-five species of birds with food, according to a government bulletin.

BLANDA. 3 to 4 ft. The canes are almost thornless and grow
from three to five feet high. The soft, pink flowers measure
two inches across and are borne in clusters. The bright red
seed hips are attractive in winter. Desirable for covering
banks and will grow in sandy or poor soil. Hardy everywhere.

2 to 3 ft......\$0.75 ea.

FEED YOUR TREES TO KEEP THEM HEALTHY

Follow the directions in the diagram, using Rose Hill Fertilizer and your trees will respond remarkably to this feeding.

Please see page one for prices on Rose Hill Fertilizer.

Hedges

Beautiful Borders of Living Green

PLEASE NOTE—25 or MORE plants are sold at the 100 rate.

HE cheapest wall or fence and the best is the living hedge. It does not need to be painted as it gives itself a new coat every year. A hedge will effectively screen out undesirable views or shut out trespassers. Plant a hedge where you need a fence. Listed below you will find hedge plants suited for all purposes and locations. Our plants are grown in the open nursery rows where they have been given ample room for both root and top development.

PLANTING THE HEDGE

We recommend planting Cotoneaster, Buckthorn and Caragana 8 inches apart in a single row. If a very wide hedge is desired, plant in two rows, each row & inches apart and the plants one foot apart in each row, staggered.

The remainder of the plants listed on this page should be planted one foot apart in a single row.

Do not fail to trim every plant immediately after planting to at least one-half its original size. Leaving only the lower one-fourth would be still better. The secret of securing a dense hedge is to cause the plants to branch out near the ground by trimming as advised above.

POSTAGE

If shipment is wanted by parcel post please add for postage and packing. Figure average weight for 100 hedge plants as follows: 12 to 18 in. sizes, 22 lbs.; 18 to 24 in., 30 lbs.; 2 to 3 ft., 50 lbs.; 3 to 4 ft., 70 lbs.

See parcel post rates on page 37.

HEDGE PLANTING CHARGES

A planting charge of fifteen cents per lineal foot is charged for planting all varieties and sizes of hedge plants.

Alpine Current Hedge on grounds of Women's Club of Minneapolis, 410 Oak Grove

Cotoneaster Hedge-The clean-appearing, glossy leaves and robust growth make this hedge a favorite

BARBERRY, Japanese or Thunberg's. (Berberis Thunbergi.) Of low spreading growth, forming a dense hedge. The twiggy branches are set with small sharp thorns and bright, clean foliage which in the fall turns to gold and scarlet. The brilliant, red berries are attractive in the fall and winter. A fine plant for a low hedge whether trimmed or allowed to grow

8 to 10 in., bushy...... 10 to 12 in., bushy...... 12 to 18 in...... 12.50 per 100 20.00 per 100 18 to 24 in. 25.00 per 100

BUCKTHORN. (Rhamnus Catharticus.) A very satisfactory plant to use when a medium high to tall hedge is wanted. It stands trimming so well that it can be kept for a long period at practically any height desired. The Buckthorn we offer have been transplanted and twice cut back, making the plants well branched right from the bottom. Many nurseries offer plants which are seedlings and do not have the root system or the low, well branched tops.

12 to 18 in... \$ 6.00 per 100

2 to 3 ft... 10.00 per 100

4 to 5 ft... 20.00 per 100

CARAGANA or SIBERIAN PEA TREE. (Caragana Arborescens.) Thrives in any well-drained soil and is hardy in the most exposed locations. Is suitable for use where a medium or tall-growing hedge is desired. Sometimes the foliage does not remain in good condition during the latter part of the summer. 12 to 18 in. . . \$ 6.00 per 100 2 to 3 ft. . . \$15.00 per 100 18 to 24 in. . . 10.00 per 100

COTONEASTER or QUINCEBERRY. (Cotoneaster Acutifolia.)
The fresh-looking, glossy green foliage of this plant and its thrifty, dense growth, combined with its hardiness, makes it ideal as a hedge plant for use in Minnesota and surrounding states. Even during periods of extremely dry hot weather the foliage retains its healthy, glossy green color, having the appearance of being varnished. It stands trimming well. The foliage turns to lovely shades of yellow and red in the folia. The beauty of this hedge far surpasses any other hedge grown in the Northwest. We especially recommend Cotoneaster to our customers. easter to our customers.

\$ 7.50 per 100 12.00 per 100 17.50 per 100 2 to 3 ft. 3 to 4 ft. 30.00 per 100

CURRANT, Alpine. (Ribes Alpimum.) Choice plant for use where a hedge of rother low growth is wanted. It is perfectly hardy and has dense foliage of a pleasing green. Will stand partial shade. We recommend this plant highly where a low hedge wanted.

8 to 10 in. \$10.00 per 100 10 to 12 in. 15.00 per 100 12 to 18 in. 25.00 per 100 18 to 24 in. \$35.00 per 100 24 to 30 in. 40.00 per 100

HONEYSUCKLE, Tatarian. (Lonicera Tatarica.) For use as a large hedge this plant is very satisfactory. It is perfectly hardy and a strong grower. It has myriads of small attractive flowers followed by red berries.

18 to 24 in. .\$22.50 per 100 3 to 4 ft. .\$35.00 per 100 2 to 3 ft... 27.50 per 100

LILAC, Common Purple or White. (Syringa Vulgaris.) Though this plant yields readily to trimming, it is best suited for use as a heage where it may be left untrimmed. The lovely flowers, one of its chief attractions, would not be produced if trimming were done. Should be planted only where the plants will have room to grow quite large. Please specify color wanted. wanted.
18 to 24 in. . \$17.50 per 100
2 to 3 ft. . 22.00 per 100

3 to 4 ft. . \$30.00 per 100

HANSA ROSE. (Hybrid Rugosa.) This plant makes a fine untrimmed hedge. The healthy, attractive, heavy, crinkled foliage withstands drought and extremely hot weather without injury. The large double red flowers are fragrant, very ornamental and are produced in great abundance during June and early July. Scattered flowers are also produced during the balance of the summer and fall. Plants should be cut back to within a foot of the ground early each spring to produce strong flowering shoots.

18 to 24 in... \$40.00 per 100 2 to 3 ft... \$45.00 per 100

IREA, Bridal Wreath. (Spirea Van Houttei.) The splendid, graceful foliage and lovely white flowers of this plant make it very desirable for use where an unsheared hedge is desired. It is perfectly hardy and thrifty growing.

Climbing Vines

VINES create a graceful softening effect. The flowering beauty of many varieties has splendid merit and as shade givers they are very fine. Used to embellish an otherwise drab wall or ugly bank, they are indispensable.

Postage—If shipment is wanted by parcel post please add for postage and packing figuring at the average weight of 11/2 pounds to each vine. See parcel post rates on page 37.

BITTERSWEET. (Celastrus Scandens.) A hardy, strong-growing vine with glossy leaves. The yellow flowers are followed by conspicuous reddishorange fruits, attractive on the vine and often used as indoor bouquets year 3 year \$0.50

CLEMATIS HENRYI. The lovely white flowers are truly gigantic in size. Growth is vigorous, often reaching eight feet in height.

2 year \$1.00 3 year \$1.25

CLEMATIS JACKMANI. The gorgeous display of bloom presented by this plant is unequalled among climbing vines. The striking purple flowers often measure six inches across. Being of refined habit it may be grown against the house and in other situations where a coarse-growing vine is not wanted. This Clematis is the most popular vine of all. See \$1.00

CLEMATIS PANICULATA. The flowers are white, small and star-shaped, very fragrant and so abundant as to almost hide the foliage. It blooms late in the summer when most other vines are through blooming.

2 year \$0.75 3 year \$1.00

DUTCHMAN'S PIPE. (**Aristolochia Sipho.**) A vigorous, rapid-growing climber with pipe-shaped flowers. The light green leaves are of very large size, and overlapping they cast a dense shade. **\$1.00** each.

GRAPE, Beta. This Grape makes one of the best vines for covering porches and arbors. It is perfectly hardy without winter protection and produces an abundance of fruit of

year extra large . \$0.35 3 year extra large . \$0.50

Boston Ivy Neat foliage, clings well to brick or stucco

Clematis, Jackmani Striking purple flowers

3 year

CLEMATIS CULTURE

Plant in well drained rich soil. The hole should be deep enough to accommodate the roots without spreading too much. If the roots are very long and numerous they may be cut back to 6 or 8 inches and some of the weaker roots thinned out. The roots should be separated enough so that soil comes firmly into contact with all the roots. Water thoroughly once a week only, if rain has not already done the watering. As it is essential to keep Clematis roots cool and moist a mulch of peat moss may be used to advantage. A trellis is the best support for them to climb on.

HONEYSUCKLE, Scarlet Trumpet. (Lonicera Sempervirens.) An old favorite; bearing scarlet, trumpet-shaped blossoms. Flowers practically all summer. Interesting, attractive clean appearing foliage. This strong growing vine will often grow 8 to 10 feet in one season. Fine for covering arbors, trellises, etc.

\$0.50 3 year.

IVY, Boston. (Ampelopsis Vetchi.) A very lovely small leaved vine, refined in habit. Clings firmly to such surfaces as presented by brick, coarse plaster, etc. The foliage is fresh deep green in summer, changing to the brightest shades of crimson and yellow in mer, changing to the the fall. See picture.

3 year.

IVY, Engelman's. (Ampelopsis Engelmani.) The hardiest climbing by for this climate. Splendid to cover brick or stone walls or any other rough surface where a vigorous growing vine is wanted. It is a rapid grower. The young growth has a purplish tinge, maturing dull green and turning a bright crimson color in the fall. . \$0.50 3 year..

Y, AMERICAN or VIRGINIA CREEPER. (Ampelopsis Quinquefolia.) A popular native vine with deeply cut leaves which turn to a beautiful crimson in the fall. Fine for covering rocky slopes, arbors, fences, etc.

\$0.35

MATRIMONY VINE. (Lycium Chinense.) Planted at the top of walls or embankments, this vine hangs gracefully down, covering beautifully the unsightliness of the ugly surface. The small, starshaped, purple flowers are succeeded by bright, scarlet, corallike berries nearly an inch long.

2 year.... \$0.35 3 year.....

Roses.

Rose Hill Roses Are Famous For Quality

OUR roses are extra fine large plants that bloomed freely last summer, most varieties being 2 to 3 feet high and with ordinary care will produce an abundance of flowers this coming summer. No better roses can be purchased. Our plants have not been packed in boxes and exposed on bargain counters for days.

These fresh roses at 75c each are fully as good or better in quality and size than roses sold in packs or pots at stores for \$1.00 each.

POSTAGE—If shipment is wanted by parcel post please add for postage and packing figuring average weight of each rose at 2 pounds. See parcel post rates on page 37.

Double Ever-Blooming Hybrid Tea Roses

These are the so-called ever-blooming roses. If the bushes are kept healthy and in good growing condition, though they do not bloom all the time, one crop of flowers follows another at short intervals from June to late October. Winter protection is necessary. The flowers are very beautiful in color, form and fragrance.

Strong 2-year plants \$0.75 each, \$7.50 per doz. Extra heavy \$1.00 each, \$10.00 per doz.

BETTY UPRICHARD. Copper and Pink. Copper red buds open to good sized flowers of salmonpink tinted with copper-pink on the outside. Spicy fragrance. Continuous bloomer.

DAME EDITH HELEN. Pink. A sweetly scented, clear pink Rose of fine form. This vigorous
plant produces bloom freely on long, strong stems.

E. G. HILL. Red. Glowing crimson-red with dark shadings. A fine, full flower carried erect
on strong stems. Good foliage. Very free flowering.

ETOILE DE HOLLANDE. Red. The half-opened flower is perfect in form and develops into a
large, artistically loose bloom of brilliant crimson. It has wonderful fragrance. The plant
is strong, with large, healthy foliage, and will thrive in almost all soils and situations.

FRAU KARL DRUSCHKI. White. A hybrid perpetual Rose. Considered the best white Rose of
any class. The splendid, snow-white flowers have beautiful form. Blooms are borne freely
on a strong growing plant. See picture.

GRUSS AN TEPLITZ. Red. The double blooms of medium size are brilliant crimson with darker
shadings. Splendid fragrance. Blooms most freely in open clusters through the whole season.
A universal favorite.

HALLEY. Red. A rich crimson-red flower with velvety texture, good form and lovely perfume.

HADLEY. Red. A rich crimson-red flower with velvety texture, good form and lovely perfume.

KAISERIN AUGUSTE VICTORIA. White. Well formed, creamy buds develop into flowers of perfect form, snow-white with slight tint of yellow at the center. Fragrant. Extremely lovely.

KILLARNEY. Pink. Has long pointed buds opening to a flat flower with enormous petals.

Bright pink in color. A very free-flowering, vigorous grower. See cut.

MRS. E. P. THOM. Yellow. Rated as one of the best yellows. A very free, continuous bloomer; growth strong and bushy. Flowers are pure yellow, buds pointed.

PINK RADIANCE. Pink. The most reliable pink Hybrid Tea Rose. Brilliant rose pink buds, opening to well-shaped, very fragrant flowers, which have splendid keeping quality when

PRESIDENT HOOVER. Orange and Scarlet. Very highly colored, vivid cerese pink suffused with yellow, orange and scarlet. Delightfully perfumed. One of the newer Roses.

RED RADIANCE. Red. The flowers are large, deep red; produce freely until frost. Foliage ex-

RED RADIANCE. Red. The flowers are large, deep red; produce freely until frost. Foliage excellent. A very popular Rose.

ROSE MARIE. Pink. Fragrant, clear, rose-pink flowers of large size, borne freely on plants of notable vigor and health. Always reliable.

SUNBURST. Yellow. Beautiful yellow flowers strongly suffused with orange at the center. Flowers are well shaped and fragrant. See cut.

TALISMAN. Copper and Red. Many beautiful shadings of scarlet, pink, copper and gold are all found in the flowers. Splendid for cutting.

Killarney H. T. Bright pink

Sunburst H. T. Yellow, orange at center

Climbing Roses

THESE require training to a trellis or upright support of some sort. Anyone willing to give them the required attention will be more than repaid by the graceful beauty of these plants. Require winter covering.

Strong 2-year plants

\$0.75 each

3-year

CLIMBING AMERICAN BEAUTY. Rosy Crimson. The delightful rosy crimson flowers are produced on separate stems in clusters. Their lovely fragrance and profusion of bloom give this rank.

CRIMSON RAMBLER. Crimson. The flowers are produced in great trusses, often thirty or forty in a cluster, appearing like large bouquets. The roses are small, semi-double, and of a bright crimson color.

DOROTHY PERKINS. Pink. The rather large, double, clear shell-pink flowers are borne in pendulous sprays. The fragrant flowers do not fade in color.

EXCELSA. Crimson. The deep scarlet crimson blooms are produced in profusion in large clusters. A vigorous grower. Has largely replaced the Crimson Rambler.

PAUL'S SCARLET CLIMBER. Scarlet Red. The well-shaped scarlet flowers are of moderate size and borne in small trusses. They are borne early and last a long time. The plant is of moderate size with good foliage. See cut.

PRIMROSE. Yellow. Large double pure yellow flowers borne in clusters of 4 to 5. A vigorous plant with good foliage.

STAECHELIN. Pink. (The Spanish Beauty.) A splendid new climbing Rose, which has the added advantage of being excellent for cutting, as the flowers are borne on 12 to 15 inch stems. Crimson buds opening into large, semi-double pink flowers. The plant is extremely vigorous, making a growth of 10 feet or more each year. One of the most useful and effective.

TAUSENDSCHOEN or THOUSAND BEAUTY. Pink. Prettily ruffled large flowers of shades of creamy white and changing to bright rose-pink. A healthy grower.

WHITE DOROTHY PERKINS. White. The flowers are rather small, very double of pure creamy white. Blooms in profusion on strong healthy plants.

Paul's Scarlet Climber Intense scarlet

Baby Rambler or Polyantha Roses

These rather small, bushy plants are the most truly ever-blooming of all roses. The bloom is borne in heavy clusters throughout the summer until frost. The size of the bush makes it especially adaptable to home yard plantings. Require careful covering for winter.

MISS EDITH CAVELL. The semi-double flowers are a brilliant scarlet red, rather small in size, produced in large clusters on well branched plants.

ELLEN POULSEN. Rather large, full flowers of bright rose-pink in large compact clusters. Fragrant; profuse blooming. Dwarf bushy plant

WHITE ORLEANS. Double, pure white flowers in abundance, borne in large fragrant clusters. Plant is strong and healthy.

RUGOSA ROSES AND HARDY BUSH ROSES

Please See Pages 12 and 13

Fr. Karl Druschki H. P.

Gruss An Teplitz Crimson

HOW TO PLANT ROSES

1st. Dig a hole so large the roots won't be cramped.

2nd. Place plant depth shown. Fill hole nearly to top with rich soil. Water thoroughly to firmly settle soil.

3rd. Trim plant to about 7 or 8 inches in height as picture shows.

4th. Cover entire top of the plant with a mound of loose soil about 9 inches high.

5th. In about two weeks pull a little of the loose soil away to observe if buds are bursting open. If buds are opening, carefully pull away the mound of loose soil. If buds are still dormant leave the mound of soil until buds are observed to burst open than remove mound. to burst open, then remove mound.

WINTER COVERING—Cover for winter this same way and over the mound place about a foot of marsh hay, then a layer of building paper. WINTER COVERING—Cover

Trees

FOR SHADE AND BEAUTY

At Small Expense You Can Plant a Tree That Will Grow Into Priceless Value

NOTE-Shade and ornamental trees are usually too large for parcel post and can be shipped freight or express to better advantage.

ASH, White. (Fraxinus Americana.) A tall-growing native tree. Comparatively free from insect pests and a clean tree. It is very desirable for use as a lawn specimen or for the boulevard. It is long lived and the tough wooded branches are resistant to wind damage. Withstands drought conditions better than most trees. Grows to large size. See picture below.

5 to	6 ft. high	\$0.50	1½ in.	diam	\$2.00

ELM, Chinese. (**Ulmus Parvifolia.**) A fast-growing, graceful, small-leaved tree with a bushy head. This recent introduction is very hardy, thriving under dry conditions. It will thrive in sandy or poor soil where most other trees fail. For a windbreak on the prairie or where a dense screen is desired this tree has no equal. A very desirable tree for the lawn. The Chinese Elm will stand the smoke and gasses of downtown city locations better than other varieties. In the park across from the Post Office, in Minneapolis, Chinese Elms are growing thriftily. See picture.

CRAB, Flame. (Minnesota No. 635.) This is primarily an ornamental crab but the fruits, though small, make an excellent red jelly. The flowers are similar to other crabs but are borne in great profusion. The tree is compact in growth and of medium size, suitable for lawn planting. The fruits are a brilliant red and hang tenaciously to the trees until midwinter, months after the leaves have fallen. The effect is a mass of flaming red color from August until November. Trees 5 to 6 feet high often have 250 or more brilliant red colored crabs. The fruit is attractive to winter birds.

ELM, Chinese Hybrid. This tree is the product of a cross between the American Elm and the Chinese Elm. Consequently it is a blend of the characteristics of these two. Leaves are larger than the Chinese Elm and branches are not as numerous. The general form of the tree resembles the American Elm. A peculiar characteristic is that the tree is even more rapid in growth than the Chinese Elm, which is a rapid grower. The root system is deep rather than spreading.

8 to 10 ft. high.....\$1.00 1½ in. diam.......\$2.00

ELM, Lake City. The outstanding characteristic of the Lake City Elm is its upright manner of growth, which develops a conical shaped tree. The foliage is a dark glossy green and of large size. The branches are strong and the tree makes unusually fast growth. The extreme variations of the American Elm is avoided when the Lake City Elm is used.

ELM, Moline. A valuable new type of tree propagated by budding. Of compact but fast-growing habit, with very large leaves of distinct dark blue-green shade.

Bolleana Poplar

HACKBERRY. (**Celtis Occidentalis.**) This tree resembles the American Elm in foliage and twig characteristics. The bark is ridged in an interesting manner. The Hackberry is ideally suited to boulevard and yard planting for it is a beautiful tree and is comparatively free from insect pests and stands city conditions well. It will grow in exposed situations and on poorer soil than many other trees. The sweet berries provide bird food.

Colorful Hardy Perennials

Flowers Which Live Year after Year in the Garden

THE plants we offer are strong field-grown perennials which in most varieties will bloom freely the first season and should not be confused with seedling plants so often offered for sale.

NOTE-Plants suitable for rock gardens are marked thus*.

POSTAGE—If shipment is wanted by parcel post, please add to cover postage and packing figuring the average weight of 1 pound to each perennial plant. See parcel post rates on page 37.

Anemone Hupehensis Mauve rose in color

- ACHILLEA EUPATORIUM. Fern-Leaved Yarrow. Brilliant yellow flowers in flot heads in July or August. Foliage finely cut. Very hardy. May be dried for winter bouquets. Three to four feet. 25c each. 3 for 70c. 6 for \$1.35.
- ACHILLEA MILLEFOLIUM. Rosy Milfoil. Dense heads of rosy pink flowers on eighteen-inch stems. Feathery faliage. Strong growing. Blooms July to October. 25c each. 3 for 70c. 6 for \$1.35.
- ACHILLEA PTARMICA. Perry's White. The pure white double flowers bloom from June to September. Excellent for cutting. 1 to 2 feet. 25c each. 3 for 70c. 6 for \$1.35.
- ACHILLEA, Ptarmica. Snowball. A new Achillea of neat habit, fine for borders. Flowers of perfect form. Blooms over a long period. June to September. 35c each. 3 for \$1.00. 6 for \$1.90. See picture.
- blue flowers are produced in September and October. A low-growing variety being 2 to 3 feet high. Very hardy and attractive. Will grow in partial shade. 35c each. 3 for \$1.00. 6 for \$1.90. ACONITUM FISCHERI. Monkshood. The helmet-shaped dark
- ANCHUSA ITALICA. Dropmore. Stately plants of easy culture growing 4 to 5 feet high and producing masses of rich gentian blue flowers in June and July. 25c each. 3 for 70c. 6 for
- ANCHUSA MYOSOTIDIFLORA.* Forget-me-not Anchusa. Clusf dainty blue flowers resembling forget-me-nots on a plant 12 inches high. Flowers May and June. **35c** each. for \$1.00. 6 for \$1.90.

- **ANEMONE HUPEHENSIS.** Delightful mauve rose flowers 11/2 inches in diameter are borne in profusion from August until frost. A very choice perennial. Grows about 18 inches high. See picture above. **35c** each. 3 for **\$1.00.** 6 for **\$1.90.**
- ANEMONE PULSATILLA. (Pasque Flower.) Violet or purple flowers are produced during April and May. Grows from 9 to 12 inches tall. An interesting plant for border or rockery. 25c each. 3 for 70c. 6 for \$1.35.
- AQUILEGIA CANADENSIS.* American Columbine. The native bright red and yellow variety. Blooms June to August, 2 feet high. See picture page 24. 25c each. 3 for 70c. 6 for \$1.35.
- AQUILEGIA.* Crimson Star. Its flowers are very large with crimson sepals and spurs, and white petals; an entirely new color in Aquilegias. The plant has a sturdy free-flowering habit blooming June to August. 35c each. 3 for \$1.00. 6 for
- AQUILEGIA CRYSANTHA.* Golden Columbine. The beautiful golden yellow flowers are in bloom from June to August. 2 feet. 25c each. 3 for 70c. 6 for \$1.35.
- AQUILEGIA CAERULEA.* Colorado Columbine. Lovely blue flowers with long spurs. June and July. 2 feet. 25c each. 3 for 70c. 6 for \$1.35.
- AQUILEGIA.* Mrs. Scott Elliot's Strain. Large size, long spurred flowers in all shades blooming from June to August. 25c each. 3 for 70c. 6 for \$1.35.
- **AQUILEGIA, Pink Beauty.** A delightful shade of pink. Free flowering, long spurred, a fine addition to every garden. Blooms June to August. **25c** each. 3 for **70c**. 6 for **\$1.35**.

Hardy Fall Aster or Michaelmas Daisy

IHIS group of lovely autumn flowering perennials is of splendid value for use as a show flower in the garden or as cut flowers. The flowers are produced in great profusion on long stems that hold the blooms strongly upright and make cutting easy. Average height 3 to 4 ft. The following named varieties give a wide range of colors to choose from.

ALDERMAN VOLKES. A lovely new Aster; bright rosy red flowers are borne profusely in clusters. About 24 inches tall. 35c each. 3 for \$1.00. 6 for \$1.90. BEECHWOOD CHALLENGER. Lovely flowers of crimson-red are produced in profushion. An outstanding variety. 40c each. 3 for \$1.15. 6 for \$2.20. BLUE GEM. Double flowers of rich blue. The finest blue. 25c each. 3 for 70c. 6

BLUE GEM. Double flowers of rich blue. The finest blue. 25c each. 3 for 70c. 6 for \$1.35.

ERICA. The flowers are a most attractive pink. Fine for cutting like all the hardy Asters. 25c each. 3 for 70c. 6 for \$1.35.

LADY LLOYD. The clear rose pink flowers are very fine and long lasting. 25c each. 3 for 70c. 6 for \$1.35.

PEGGY BALLARD. Large sprays of double rosy mauve flowers produced in great abundance. 25c each. 3 for 70c. 6 for \$1.35.

SUNSET. A delightful new Aster with flowers of sunset pink. Very free flowering. Grows about 36 inches high. 35c each. 3 for \$1.00. 6 for \$1.90.

WHITE LADY. The clear white semi-double flowers are produced freely on a plant 3 to 4 feet tall. 35c each. 3 for \$1.00. 6 for \$1.90.

Achillea, Snowball

ROSE HILL NURSERY

ARABIS ALPINA.* Alpine Rockcress. Dense masses of pure white flowers. 10 to 12 in blooms May to August. Fine for border and rockery. 25c each. 3 for 70c. 6 for \$1.35.

ARTEMISIA.* Silver King. A striking plant with silvery gray leaves. A brilliant contrast plant in the garden and lovely when cut for winter bouquets. 3 feet. 25c each. 3 for 70c. 6 for

ARTEMISIA. Lactiflora. A tall-growing plant of fine foliage and heads of small, white flowers in August and September which fill the garden with fragrance. A splendid and graceful cut flower. 25c each. 3 for 70c. 6 for \$1.35.

ASTER ALPINUS GOLIATH.* Showy bluish purple flowers in May and June. 6 to 10 inches. Fine for rockery or edge of borders. Plant in full sun. 25c each. 3 for 70c. 6 for \$1.35.

ASTILBE. Pink Plume. Feathery plume-like pink colored flowers in June and July. Handsome foliage. Very attractive in flower border. About 2 feet tall. **35c** each. 3 for **\$1.00.** 6 for **\$1.90.**

ASTILBE, Marguerite Vanrechteren. The feathery plumes are bright red tinged with purple. This plant blooms in June and July and produces flower stems about two feet in length. 35c each. 3 for \$1.00. 6 for \$1.90.

BAPTISIA AUSTRALIS. False Indigo. Pea-shaped flowers of dark blue which resemble Lupines. Blooms in June, produced on 2 foot spikes. 25c each. 3 for 70c. 6 for \$1.35.

BOLTONIA LATISQUAMA. Profusely covered with thousands of starlike lavender-pink flowers on plant 4 to 6 feet tall. Excellent cut flowers for large gardens. August and September. 25c each. 3 for 70c. 6 for \$1.35.

CAMPANULA MEDIUM. Canterbury Bells. Large, bell-shaped flowers in blue, pink of A biennial 3 feet tall. Blooms late June and July. 25c each. 3 for 70c. 6 for \$1.35. or white.

CAMPANULA CALYCANTHEMA. Cup and Saucer, Canterbury Bell. A tall, erect-growing biennial. Flowers large, cup and saucer shaped, during late May and June. Colors, blue and white. 25c each. 3 for 70c. 6 for \$1.35.

CAMPANULA CARPATICA.* Carpathian Harebell. A dwarf, compact plant 8 to 10 inches high. Flowers clear blue, bell-shaped, in July and August. A good border plant. 25c each. 3 for 70c. Flowers clear 6 for \$1.35.

CAMPANULA ROTUNDIFOLIA. Blue Bells of Scotland. The compact, slender, arching stems,
12 to 18 inches high, are completely covered with beautiful, blue, bell shaped flowers, continuing to bloom from early July into the fall. The refined foliage remains in a healthy
condition throughout the season and the plant presents a fine appearance during the
whole summer. 25c each. 3 for 70c. 6 for \$1.35.

CARNATION, Hardy Border. The most hardy variety of double carnations for the border. The brilliantly colored flowers are a riot of color. Their spicy fragrance and the perfect form of the flower make them valuable cut flowers. Bloom all summer. Offered in the following colors:

Bright Scarlet. A vivid, striking red carnation. Attractive in the garden and fine for cutting. 25c each. 3 for 70c. 6 for \$1.35.

King of Blacks. Flowers of deepest maroon. Almost black. Fine for cutting. **25c** each. 3 for **70c**. 6 for **\$1.35**.

Rose Queen. A great favorite. Rose pink flowers on strong, wiry stems. **25c** each. 3 for **70c.** 6 for **\$1.35.**

White Gem. White flowers. Profuse blooming and fine for cutting. 25c each. 3 for 70c. 6 for \$1.35.

White Gold. A delightful pale yellow. Like the others it is fine for cutting and blooms profusely. 25c each. 3 for 70c. 6 for \$1.35.

CENTAUREA, Macrocephala—Golden Centaurea. Perhaps the showiest of all the Centaureas because of the large size of the thistle-like flowers of golden yellow. Grows erect on strong stems. Blooms July and August. About $3\,1/2$ feet tall. 35c each. 3 for \$1.00. 6 for \$1.90.

CENTAUREA MONTANA. Perennial Cornflower. Attractive violet-blue flowers, thistle-like in form. Blooms July to September. 2 feet. 25c each. 3 for 70c. 6 for \$1.35.

CENTAUREA DEALBATA. Large attractive rose-pink flowers, thistle-like in form. July and August. 2 feet. 25c each. 3 for 70c. 6 for \$1.35.

CEPHALARIA. A tall, hardy perennial, well suited to the back of the flower border. Grows 4 to 5 feet tall and has yellow, interesting flowers on long stems. A striking plant in appearance and valuable for cut flowers. 25c each. 3 for 70c. 6 for \$1.35.

CERASTIUM TOMENTOSUM.* Snow in Summer. Snow white flowers produced in abundance during June through August. Silvery white foliage. 10 to 12 inches tall. Fine for borders or rock gardens. 25c each. 3 for 70c. 6 for 1.35.

CHRYSANTHEMUMS, Cushion Type. Azalia-like Mums. This group of low growing 'Mums form mounds of bloom about 12 to 18 inches high and spread about two feet. They flower early among the 'Mum group and are literally covered with hundreds of most attractive flowers. They bloom from early autumn until late freezing weather, after practically all other

Clara Curtis. A most profuse blooming salmon-pink, single Flowers 3 inches across, are produced on many branched stems, not over 12 to 18 inches tall, in such profusion that the plants look like mounds of pink. They start blooming earlier than other varieties. Very choice. **35c** each. 3 for **\$1.00.** 6 for **\$1.90.**

Pink Cushion. Light pink flowers in the greatest profusion. 35c each. 3 for \$1.00. 6 for \$1.90.

Bronze Cushion. A bronze form of the above with deep bronze flowers, turning to bronzy, coppery yellow. 35c each. 3 for \$1.00. 6 for \$1.90.

White Cushion. When opening the flowers show a delicate pink to pure white as they develop. 35c each. 3 for \$1.00. 6 for \$1.90.

Inodorum. This is an early summer blooming variety. The flowers are double and white. 35c each. 3 for \$1.00, 6 for \$1.90.

Tasiva. Free flowering, double, pure white of compact form. Flowers about 2 inches across. Fine, too, for cutting like the others of this group. **35c** each. 3 for **\$1.00.** 6 for **\$1.90.**

COREOPSIS. An abundance of golden yellow daisy-like flowers from June until October. Makes a fine showing in the garden and splendid for cutting as the stems are wiry and graceful. See picture right. 2 feet. 25c each. 3 for 70c. 6 for \$1.35.

Aquilegia (Columbine) Pink, blue, yellow, crimson, or red and yellow All Aquilegias will grow in semi-shade

Campanula Medium Canterbury Bells Blue, pink or white

Coreopsis, Golden Yellow

Dictamnus (Gas Plant) Pink or white flowers

Dahlias.

A splendid late summer and autumn flowering plant and fully deserving of widespread popularity. The wide color range offers a most attractive selection. The roots must be dug up after the first frost and stored in cellar over winter.

JERSEY BEACON. Chinese scarlet flowers of large size on strong stems. Very attractive. 35c each. 3 for \$1.00. 6 for \$1.90.

JANE COWL. Warm buff and old gold blending to apricot and rose at the center. Strong growing. 25c each. 3 for 70c. 6 for

JERSEY BEAUTY. Considered the very best all-around Dahlia for every purpose. It surely is the finest true pink variety in commerce today. 35c each. 3 for \$1.00. 6 for \$1.90.

MRS. I. de VER WARNER. Of vigorous growth, free flowering, and with beautiful long stemmed blooms of a charming orchid-lavender color. 35c each. 3 for \$1.00. 6 for \$1.90.

WHITE KING. A general favorite with the commercial grower. Pure white, large with fine long stems. 35c each. 3 for \$1.00. 6 for \$1.90.

WHITE WONDER. The giant blooms are pure white with long pointed, twisted and curled petals, giving the flower a light, fluffy appearance. Strong vigorous grower. 35c each. 3 for \$1.00. 6 for \$1.90.

Delphinium - Larkspurs

DELPHINIUM BELLADONNA. One of the most continuous bloomers of all Larkspurs, with delicate clear turquoise blue flowers. 4 to 5 feet. **25c** each. 3 for **70c.** 6 for **\$1.35**.

DELPHINIUM BELLAMOSA. A very rich dark blue shade. Flowers on spikes 15 to 18 inches long, excellent for cutting. Blooms for a long period if kept cut. **25c** each. 3 for **70c.** 6 for \$1.35.

DELPHINIUM. Blackmore and Langdon Strain, Selected as one of the best of the English strains. Extra large flowers, excellently placed on strong, sturdy stems. Many of them measure over 6 feet in height. A blending of rich blues. **35c** each. 3 for \$1.00. 6 for \$1.90.

DELPHINIUM, Blue Grotto. A very rich, dark blue shade. Flower spikes 15 to 18 inches long. Excellent for cutting. **25c** each. 3 for **70c.** 6 for **\$1.35.**

DELPHINIUM CHINENSE. Handsome feathery foliage and deep gentian blue flowers. June through September. 1 to 2 feet. **25c** each. 3 for **70c.** 6 for **\$1.35.**

DELPHINIUM GOLD MEDAL HYBRIDS. This is an extra fine strain of strong vigorous habit with large spikes of flowers from two to three feet long; in fine shades of light blue to deep indigo blue and royal purple with pastel tones of mauve, pink and lavender blendings. Some forms are double, some single. See picture. 5 to 6 feet. **25c** each. 3 for **70c.** 6 for \$1.35.

DELPHINIUM, Rose Hill Giant Flowered Double. All who see these beautiful flowers in our beds marvel at their great size and beauty. In color they range from deepest indigo blue and royal purple to the palest blue with many intermediary pastel tones of mauve, pink and lavender blendings. Even white is included. To have plants such as these in one's garden is to have the loveliest obtainable.

Offered in the following colors:

Violet and Blue Shades-Lavender and Pink Shades-Clear Light Blue Shades-White Shades. 50c each. 3 for \$1.40. 6 for \$2.70.

Larkspur (Delphinium) Gold Medal Hybrids in many shades

DIANTHUS ALPINUS ALLWOODI.* Glossy leaves and large flowers in various shades a July and August. 6-inch. Splendid for rock gardens. 25c each. 3 for 70c. 6 for \$1.35. of rose and pink.

DIANTHUS BARBATUS. Sweet William. The old-fashioned garden favorite. Flowers in color combinations of red, white and pink. $1\frac{1}{2}$ to 2 feet. See picture. Blooms late May to July. **25c** each. 3 for **70c.** 6 for **\$1.35.**

DIANTHUS PLUMARIUS,* Clove Pink, Fragrant flowers in rose-pink and white. Handsome blue-green foliage. Splendid for rock garden or for edging. Blooms continuously if flowers are cut. 10 to 12 inches. 25c each. 3 for 70c. 6 for \$1.35.

DICENTRA EXIMA.* Plumy Bleeding Heart. Beautiful finely cut foliage and pink heart-shaped flowers. Grows 12 to 18 inches high and blooms throughout the season. One of the choicest border plants. 40c each. 3 for \$1.15. 6 for \$2.20.

DICENTRA SPECTABILIS. Bleeding Heart. The heart-shaped pink flowers have long been a favorite. Grows 2 to 3 feet tall and blooms during late April and May. See picture. 35c each. 3 for \$1.00. 6 for \$1.90.

DICTAMNUS FRAXINELLA, Gas Plant, Pink. Å very satisfactory perennial plant growing about 21/2 feet in height, having fragrant foliage and spikes of rosy pink flowers blooming during June and July. It is not only effective while in full bloom, but the dark, persistent foliage is ornamental throughout the summer. The plant is as hardy as a peony and should be given fully as much space to develop. It is long lived and should not be disturbed by frequent transplanting. 40c each. 3 for \$1.15. 6 for \$2.20.

Dianthus (Sweet William) White, red and pink flowers in variations

Gaillardia
Petals of yellow and crimson,
center deep red

ROSE HILL NURSERY

DICTAMNUS FRAXINELLA ALBA. Gas Plant, White. Similar to the Dictamnus described on page 25 but with white flowers instead of pink flowers. 40c each. 3 for \$1.15. 6 for \$2.20.

plant is a biennial, bearing spikes of long tubular flowers. Mixed colors of rose, purple and white. 3 to 4 feet. Late June and July. See picture. 25c each. 3 for 70c. 6 for \$1.35.

ERIGERON SPECIOSUS. Large, handsome aster-like blue flowers, violet tinted with golden yellow centers, during June and July; fine for cutting; grows 2 to 3 feet high. 25c each. 3 for 70c. 6 for \$1.35.

EUPHORBIA POLYCHROMA. This plant grows into a very pretty, formal rounded clump about a foot high. Very attractive foliage. Covered in May and June with yellow flowers. **35c** each. 3 for **\$1.00.** 6 for **\$1.90.**

FERNS, Hardy.* Their beautiful foliage should be in every yard. Very fine for shaded locations where other plants will not thrive. Extra heavy large clumps. 25c each. 3 for 70c. 6 for \$1.35.

FILIPENDULA. Meadow Sweet. White flowers borne in graceful feathery plumes. Handsome divided leaves. June and July. 18 to 24 inches. 35c each. 3 for \$1.00. 6 for \$1.90.

FORGET-ME-NOTS.* See Myosotis, page 29.

FUNKIA CAERULEA. Blue Plantain Lily. Handsome dark green foliage with blue lily-like flowers, borne on drooping spikes. Stands partial shade, Blooms July and August. 18 to 24 inches. 25c each. 3 for 70c. 6 for \$1.35.

FUNKIA SUBCORDATA GRANDIFLORA. White Plantain Lily. Bears large, pure white, lily-shaped flowers in August and September. Very attractive broad glossy dark green leaves. Stands shade. 24 inches. **50c** each. 3 for **\$1.40.** 6 for **\$2.70.**

FUNKIA VARIEGATA. Most attractive with its wide leaves of glossy green variegated with white. Blue flowers. Will grow in partial shade. Blooms July and August. 18 to 24 inches. **35c** each. 3 for \$1.00. 6 for \$1.90.

GAILLARDIA GRANDIFLORA. Blanket Flower. A very showy flower in the garden and splendid for cutting. The center is dark red while the petals are crimson and yellow. A profusion of bloom from June to frost. 18 to 24 inches tall. See picture. 25c each. 3 for 70c. 6 for \$1.35.

GAILLARDIA SUN GOD. Improved. A grand new Gaillardia and one of the showiest of garden flowers. Magnificent chamois yellow blooms, 3 to 4 inches in diameter, borne on stout stems of gray green. 2 feet tall. Blooms all summer. 35c each. 3 for \$1.00. 6 for \$1.90.

GLOBULARIA.* Globe Daisy. A dwarf, tufted little plant with beautiful lavender flower heads. June to September. Does well in front of a well-drained border and is a brilliant picture in the rock garden. 25c each. 3 for 70c. 6 for \$1.35.

GYPSOPHILA PANICULATA. Baby's Breath. Remarkably numerous starry, single white flowers, borne on thread-like stalks. Very fine for bouquets. 2 to 3 feet. July and August. 25c each. 3 for 70c. 6 for \$1.35.

HELIG

GYPSOPHILA, BRISTOL FAIRY. A recently introduced double, ever-blooming Baby's Breath. Has larger, whiter flowers than the old Baby's Breath. Blooms from June to October. For winter bouquets it dries perfectly and does not discolor. Combines lovely in bouquets of fresh flowers, too. 50c each. 3 for \$1.40. 6 for \$2.70.

HELENIUM RIVERTON GEM. The flowers, borne in clusters, are colored old gold suffused with bright terra cotta and red. Blooms August to October. 3 to 4 feet. Showy in the garden, fine for cutting. 25c each. 3 for 70c. 6 for \$1.35.

HEMEROCALLIS DR. REGAL. Very handsome, rich orange yellow flowers. Very fragrant and fine for cutting. **25c** each. 3 for **70c.** 6 for **\$1.35.**

HEMEROCALLIS FLAVA. Lemon Day Lily. Grows 2 to 3 feet high with long, narrow leaves and produces deep lemon-yellow fragrant flowers from early June until well into July. 25c each. 3 for 70c. 6 for \$1.35.

HEMEROCALLIS, Florham. Trumpet shaped flowers of deep golden yellow with dusky yellow markings. The petals are delightfully frilled. **25c** each. 3 for **70c.** 6 for **\$1.35**.

HEMEROCALLIS FULVA. Tawny Day Lily or Golden Lily. The flowers are coppery orange, trumpet-shaped and produced on plants about 3 feet tall. Blooms June and July. 25c each. 3 for 70c. 6 for \$1.35.

HEMEROCALLIS, Hyperion New. Considered by many to be the finest of the pale yellow day lillies. Flowers of citron yellow color are produced in abundance on sturdy stems near 40 inches tall. Grand for cutting, opening beautifully in water and having a most delightful fragrance. **75c** each. 3 for **\$2.15.** 6 for **\$4.20.**

HEMEROCALLIS KWANSO. A double-flowered variety with large, rich, golden bronze flowers in July and August. 25c each. 3 for 70c. 6 for \$1.35.

Various shades of red, pink and white

Digitalis (Foxglove)
Flowers of rose, purple
or white

Beautiful **Gladiolus** — Grand for Cutting

FOR beautiful flowers, available from July until late fall, there are none more dependable or magnificent than the Gladioli. Planted in clumps they are attractive in the garden and as a cut flower they have no peer. By planting at intervals, about one week apart, starting the first part of May and continuing to the middle of June, a succession of bloom may be had from July until late fall. Plant the bulbs in cultivated, well-drained soil about 5 inches deep. They do best in full sun. When cutting 3 or 4 leaves should be left to the plant which will allow the bulb to properly mature. After the first killing frost, take the bulbs up carefully and cut off the stalk about 1 inch from the bulb and allow it to dry about one week. Then pack in shallow boxes and place for the winter in a cool dry cellar where the temperature will not go below freezing. The following varieties are among the most lovely and dependable:

Postage—If wanted by parcel post please add for postage and packing figuring at the average weight of 2 pounds to a dozen Gladioli. Please see postage rates on page 37.

ROSE HILL BLUE RIBBON GLADIOLI COLLECTION. This assortment of bulbs consists of a wide range of colors and is sure to give you perfect satisfaction. 3 for **10c.** 12 for **35c.** 100 for **\$2.50.**

BETTY NUTHALL. Large, magnificent coral pink flowers with light orange throat. 3 for 20c. 12 for 50c.

CRIMSON GLOW. Extra large flowers. Tall spike of a brilliant crimson. 3 for 20c. 12 for 50c.

DR. F. E. BENNETT. A very desirable variety with large, brilliant, fiery red flowers. 3 for 20c. 12 for 50c.

GIANT NYMPH. Giant LaFrance pink, with creamy yellow throat powdered scarlet. 3 for 20c. 12 for 50c.

GLORIANA. A strong grower. Flowers rich salmon with creamy blotch. Choice. 3 for **20c.** 12 for **50c.**

GOLDEN DREAM. A very fine, deep golden yellow. A strong, tall grower. A truly beautiful flower. 3 for 20c, 12 for 50c.

MARY PICKFORD. One of the older varieties but still a general favorite. Flowers are fine creamy white with yellow throat. 3 for 20c. 12 for 50c.

MINUET. A delightful large orchid colored flower produced on a strong spike with 7 or 8 large florets in bloom at one time. The finest of its color. 3 for 20c. 12 for 50c.

MOROCCO. Large florets of a very deep glistening maroon six to eight open at one time, making a grand showing when planted near lighter shades. 3 for 25c. 12 for 75c.

MRS. LEON DOUGLAS. One of the tallest, strongest-growing of all Gladioli. The immense blooms of luminous coral rose are marked with vivid splashes of rich ruby. No variety is more showy, or arrests more strikingly the interest of the casual beholder. 3 for 20c. 12 for 50c.

PEACE. A late variety with tall spikes of magnificent bold white blooms, feathered rosy carmine in the throat. 3 for **20c.** 12 for **50c.**

PICARDY. A most sensational flower. The individual florets are extremely large, slightly ruffled and of heavy wax-like substance. Has created a sensation practically every time exhibited. "Picardy" is unquestionably one of the most outstanding sorts. Color: Soft shrimp pink, without flecking. Blotch of light flesh pink. Though gigantic in size, Picardy is anything but coarse. 3 for 20c. 12 for 50c.

POLAR ICE. A grand new variety with extra large florets often measuring 6 to 8 inches in diameter and produced on tall, straight stems. It is a pure paper white in color and many of the magnificent flowers open at one time. It is one of the best exhibition sorts. 3 for **25c.** 12 for **75c.**

STAR OF BETHLEHEM. Color purest white with a touch of cream on lower petals. Six to eight florets open at one time on a very tall, slender spike. A choice exhibition variety and should be included in every collection. 3 for 25c. 12 for 75c.

Hemerocallis Flava Lemon yellow

HEMEROCALLIS MIDDENDORFFI. Rich orange yellow flowers, very fragrant. Fine for cutting. **25c** each. 3 for **70c.** 6 for **\$1.35.**

HEUCHERA BRIZOIDES.* Has more robust foliage and better habit than Heuchera Sanguinea; the flowers are light pink and produced profusely in June. Flowers resemble Lily of the Valley in form. Fine for cutting. 35c each. 3 for \$1.00. 6 for \$1.90.

HEUCHERA SANGUINEA.* Coral Bells. Graceful spikes of coral-red flowers on plants growing 1½ to 2 feet tall. A compact foliage. Excellent for cutting and fine in the rock garden. June to September. **35c** each. 3 for **\$1.00.** 6 for **\$1.90.**

HIBISCUS, MEEHAN'S MALLOW MARYELS. A magnificent stain of hardy Mallows, which for size and profusion of bloom and richness of coloring are among the most striking and beautiful perennials that grow. Flowers 8 to 10 inches in diameter ranging in color through various shades of red, pink and white. See cut page 26. 25c each. 3 for 70c. 6 for \$1.35.

HOLLYHOCKS. Double-flowering. We offer these beautiful flowers in red, pink, yellow, white, maroon, rose and salmon-pink. They grow 5 to 7 feet tall. Blooms July and August. See picture on page 28. 25c each. 3 for 70c. 6 for \$1.35. Extra large 40c each. 3 for \$1.15. 6 for \$2.20.

DELIGHTFUL Gris

RICH IN COLOR

THE Iris is a magnificent hardy perennial and a general favorite. They have been referred to as the Orchid of the hardy garden. The Iris offers innumerable color combinations of unsurpassed beauty, and the lovely structure of the flower is difficult to describe. It is one of our easiest perennials to grow, requiring a minimum of care and thriving under conditions of soil and weather in which other perennials would fail. In the following carefully selected list a splendid selection is offered.

Oenothera Fraseri Satiny yellow flowers

PAPAVER ORIENTALE. Oriental Poppy. The flowers of brilliant crimson are about six inches across and produced on plants about 2½ feet tall. Blooms in June. 25c each. 3 for 70c. 6 for \$1.35.

PAPAVER ORIENTALE. Mrs. Perry. Orange-apricot in color. Blooms in June. A very fine variety. 35c each. 3 for \$1.00. 6 for \$1

Lychnis Chalcedonia Brilliant vermillion scarlet

Peonies

Rival of the Rose

CARE should be taken in planting the Peony, to set the roots with the eyes about 1 to 2 inches below the surface of the soil. Planting too deep will prevent blooming though the plant may otherwise seem healthy. Peonies do best in a rich soil. Peonies are gross feeders. Thoroughly decomposed cow manure or commercial fertilizer should be used but care must be taken not to have the fertilizer come into direct contact with the roots.

We offer strong 3- to 5-eye roots at prices quoted. Also 6- to 8-eye, blooming size roots at double the price quoted after each variety.

CHERRY HILL. A charming soft velvety, garnet red. Blooms very early on a tall plant with erect stems. **75c** each.

COURONNE D'OR. Pure white with a circle of gold stamens. A very fragrant semi-rose type. Late mid-season bloom. The cut flowers keep very well. 50c each.

FELIX CROUSSE. The bomb-shaped flower is a rich, brilliant ruby red. The flower is large and comes into bloom in late mid-season. 75c each.

FESTIVA MAXIMA. Early white with inner petals slightly tipped carmine. Free-blooming and fragrant. 50c each.

FRANCES WILLARD. Very large, white delicately shading pink. Pleasantly perfumed. Strong growing and lasting as a cut flower. Late mid-season. **75c** each.

GROVER CLEVELAND. Dark crimson. A late rose-type, strong, vigorous grower with large, full flowers. \$1.00 each.

KARL ROSENFIELD. Flower crimson, large, compact semi-rose type. Mid-season. Very strong, tall and free blooming. Slightly fragrant. **\$1.00** each.

LADY ALEXANDER DUFF. Lovely soft pink nicely formed flower of large size. Fragrant. Very free flowering tall and robust. 75c each.

LE CYGNE. The finest white peony. Large, perfectly formed flowers, cream white with a touch of green at the heart. A strong growing plant. **\$2.00** each.

L'ESPERANCE or EDULIS SUPERBA. Bright pink with slight violet shadings at base of petals. Large crown type. Early. Fragrant. Strong and upright in habit. A very free bloomer. **50c** each.

LIVINGSTONE. Lilac rose with silver tipped petals. Rose type. It is late blooming. Flowers borne in clusters. Strong growing. **75c** each.

LOUIS VAN HOUTTE. Fine violet-red bloom of dazzling effect.
Very fine, shapely bloom. Medium to large flower. Midseason. 75c each.

MARTHA BULLOCK. A mammoth flower of deep rose pink, shading lighter, strongly fragrant. Stems stiff and strong. Late blooming. \$1.00 each.

MONS. JULES ELIE. Color a beautiful pure pink. This is one of the finest peonies. Blooms early mid-season. Flowers shaped like a giant chrysanthemum. \$1.00 each.

PRESIDENT ROOSEVELT. A deep, rich, glowing red of very unusual shade. A strong-growing, truly grand peony. 75c each.

SARAH BERNHART. It is one of the strongest growers. Flowers are exceptionally large, apple blossom pink with each petal silver tipped. This flower must be seen to be fully appreciated. Fragrant. \$1.00 each.

THERESE. One of the three highest rated peonies. The delicately fragrant flowers are a rich satiny pink, rose type and of very large size. \$1.00 each.

WALTER FAXON. Bright rose, shaded salmon and deeper rose at the base. Blooms mid-season on a medium tall vigorous plant. \$1.00 each.

JAPANESE PEONY

MIKADO. Shaped like a gigantic poppy. The flowers are velvety crimson with a gold center. Generally in bloom for Decoration day. The plant blooms freely and is a distinct favorite. \$1.00 each.

Hardy Phlox

GLORY OF THE GARDEN IN MIDSUMMER

These beautiful hardy plants are the most colorful and attractive of all during late summer and early fall. Blooming most profusely, their brilliant colors admired by all, they make a wonderful display in the flower border. The following varieties have been selected for their strong growth, clear colors and profusion of bloom colors and profusion of bloom.

The Phlox we offer are all strong field-grown, two-year-old plants, sure to bloom the first summer.

AFRICA. A dazzling deep scarlet variety. Well shaped, large flowers produced on strong stems. One of the best deep red varieties which does not mildew. A gem for the flower border. 35c each. 3 for \$1.00. 6 for \$1.90.

Platycodon (Balloon Flower) Flowers deep blue

Dwarf Phlox

AMOENA.* Fine for carpeting the ground in the rockery or as a border. Forms a sheet 4 inches high of bright pink flowers in the spring. 25c each. 3 for 70c. 6 for \$1.35.

SUBULATA.* Moss Pink. Masses of pink bloom in early spring. Pretty moss-like evergreen foliage. A fine plant for edging the border and for use in the rockery. Plant in full sun. 25c each. 3 for 70c. 6 for \$1.35.

SUBULATA.* Vivid. Bright pink with dark pink eye. Blooms in early spring. We consider this the choicest of the dwarf varieties of Phlox. 25c each. 3 for 70c. 6 for \$1.35.

PHYSALIS. Chinese Lantern Plant. Valued for the bright orange-scarlet lantern-like fruits which when cut and dried may be used for floral decorations during the winter. 2 feet high. 25c each. 3 for 70c. 6 for \$1.35.

PHYSOSTEGIA VIRGINICA. False Dragonhead. Long spikes of delicate pink flowers in July and August. Plant grows about three feet. 25c each. 3 for 70c. 6 for \$1.35.

PHYSOSTEGIA. Vivid. A new dwarf variety about 20 inches tall. Flowers are a deep pink and bloom in September. Very good cut flower. 25c each. 3 for 70c. 6 for \$1.35.

PLATYCODON GRANDIFLORUM. Balloon Flower. Large bell-shaped flowers of a deep shade of blue. Blooms July until late September. 2 to 3 feet high. See cut. 25c each. 3 for 70c. 6 for \$1.35.

LATYCODON GRANDIFLORUM ALBUM. Similar to the above described plant excepting in color, which is white. 25c each. 3 for 70c. 6 for \$1.35.

POLEMONIUM COERULEUM. Jacob's Ladder. Erect stems of sky-blue flowers. Graceful pinnate leaves, the flowers borne in loose heads. 1½ feet. June and July. Suitable for rockery. **25c** each. 3 for **70c.** 6 for **\$1.35**.

PYRETHRUM HYBRIDUM. Persian Daisy. YRETHRUM HYBRIDUM. Persian Daisy. The daisy-like flowers are both single and double in shades of white, pink and red to deep crimson. The blossoms are produced on long, araceful stems, mak-ing it a very desirable cut flower. Blooms June and July. 24 inches tall. See pic-ture. 25c each. 3 for 70c. 6 for \$1.35.

PYRETHRUM. Kelway's Dark Red. This is an improved form of the above described Pyrethrum. The flowers

Phlox Enchantress Bright salmon pink with dark eye

are dark red with a distinctive yellow center. **35c** each. 3 for **\$1.00.** 6 for **\$1.95.** PYRETHRUM ULIGINO-SUM. Giant Daisy. Clusters of large daisy-like white flowers with yellow centers, blooms in late summer and fall.

feet tall. See picture.

25c each. 3 for **70c.** 6 for **\$1.35**.

RANUNCULUS REPENS. Buttercup. A pretty double-flowering, bright yellow buttercup. Masses of blossoms during May and June. 1 foot high. The luxurious foliage makes a fine ground cover. Does well both in sunny and shady locations. 25c each. 3 for 70c. 6 for \$1.35.

B'COMTE. Large panicles of rich, satiny purple flowers. Exceedingly brilliant, tall growing. Blooms mid-season to late. 25c each. 3 for 70c. 6 for \$1.35.

BEACON. Brilliant cherry-red of arresting beauty, grows 3 feet high. One of the best in this color. 35c each. 3 for \$1.00. 6 for \$1.90.

for \$1.90.

BRIDESMAID. A lovely white with crimson eye. A tall-growing variety. Blooms mid-season. 25c each. 3 for 70c. 6 for \$1.35.

COUNT ZEPPELIN. Pure white flowers with a vermillion red eye. There is no fading or suffusing of color. A striking, clean looking Phlox. Flowers profusely and is strong growing. About thirty inches tall. 35c each. 3 for \$1.00. 6 for \$1.90.

DAILY SKETCH. A very fine, distinctive, new Phlox, salmon pink with a vivid crimson eye. The flowers are unusually large and the plant vigorous and tall growing. We consider this the finest new variety we have tested. 40c each. 3 for \$1.15. 6 for \$2.20.

DIVARICATA. Large fragrant lavender flowers produced in May on stems 10 to 12 inches high. 25c each. 3 for 70c. 6 for \$1.35.

E. I. FARRINGTON. Delightful salmon-pink shading to a soft

on stems 10 to 12 inches high. 25c each. 3 for 70c. 6 for \$1.35.

E. I. FARRINGTON. Delightful salmon-pink shading to a soft pink. Of vigorous growth and erect habit. Good for cutting. 35c each. 3 for \$1.00. 6 for \$1.90.

ENCHANTRESS. Bright salmon pink with dark eye, resembling Elizabeth Campbell in color but far superior as it is a stronger grower with rich, glossy foliage. See cut. 25c each. 3 for 70c. 6 for \$1.35.

ETHEL PRITCHARD. Very lovely orchid colored variety. During cloudy weather the color closely resembles that of Phlox Divaricata. It flowers freely and grows strong. Most attractive when planted among white or yellow flowers. Grows fairly tall. 35c each. 3 for \$1.00. 6 for \$1.90.

FIREBRAND. A new bright orange-scarlet, almost vermillion. A very profuse bloomer throughout the entire season. Medium height. 35c each. 3 for \$1.00. 6 for \$1.90.

FRAULEIN VON LASSBURG. A splendid pure white, tall, midseason variety. Very free-flowering. 25c each. 3 for 70c. 6 for \$1.35.

GEORGE STIPP. A new Phlox of outstanding worth. Glowing deep salmon with a lighter eye. Color does not fade. 35c each. 3 for \$1.00. 6 for \$1.90.

LEO SCHLAGETER. New brilliant scarlet blooms. Striking in appearance. A decided orange cast adds to their beauty. Blooms early. Grows three feet tall. 35c each. 3 for \$1.00. 6 for \$1.90.

LOTHAIR. A charming Phlox, salmon pink deepening in color toward the center Blooms midseagen.

LOTHAIR. A charming Phlox, salmon pink deepening in color toward the center. Blooms mid-season. 25c each. 3 for 70c.

ARY LOUISE. Unusually large flower heads of glistening snowwhite. The individual flowers are much larger than any other white. Of medium height and strong growing. 35c each. 3 for \$1.00. 6 for \$1.90.

Also LINGARD. A very lovely early white, coming into bloom a month ahead of most Phlox, large, loose clusters of flowers on strong stems with shiny green foliage. The best early white. 25c each. 3 for 70c. 6 for \$1.35.

MRS. CHARLES DOOR. A lovely rose-lavender. Tall growing. The finest of all lavender-phlox. 35c each. 3 for \$1.00. 6

resulting display is gorgeous. **35c** each. 3 for **\$1.00.** 6 for 1 90

SIR EDWIN LANDSEER. Very bright crimson. Large trusses and vigorous, healthy growth. Its strong color is most attractive. 2 each. 3 for 70c. 6 for \$1.35.
WIDAR. Most attractive viol

Phlox of medium height and a clear white eye. A Phlox of medium height and a very satisfactory grower. 35c each. 3 for \$1.00. 6 for \$1.90.

Rudbeckia, Cone Flower
Petals reddish purple, cone of brown

Shasta Daisy, Alaska White with yellow center

Veronica (Speedwell)
Spikes of violet blue

RIBBON GRASS.* Phalaris Arundinacea Variegata. Very ornamental, green leaves striped lengthwise with creamy white. Grows about three feet tall. 25c each. 3 for 70c. 6 for \$1.35.

RUDBECKIA LACINIATA. Golden Glow. Produces masses of double dahlia-like golden yellow flowers from July to September. Strong grower, 5 to 6 feet. 25c each. 3 for 70c. 6 for \$1.35.

RUDBECKIA MAXIMA. A rare and attractive variety growing 5 feet high. Large bluish green leaves and bright yellow flowers 5 to 6 inches across with a cone 2 inches high. Flowers continuously from June to September. **35c** each. 3 for **\$1.00.** 6 for **\$1.90.**

RUDBECKIA PURPUREA. Purple Cone Flower. Blossoms about four inches across of a peculiar reddish- purple, with a remarkably large cone-shaped center of brown. July and August. 3 feet high. See cut. 25c each. 3 for 70c. 6 for \$1.35.

SEDUM ALBUM.* White flowers on a dwarf spreading plant with thick, waxy, round foliage. Fine for rockery. 25c each. 3 for 70c. 6 for \$1.35.

SEDUM ACRE.* Golden Moss. A dwarf plant with a profusion of bright yellow flowers from June to July. 3 to 4 inches. Fine for edging the border or for rock gardens. **25c** each. 3 for **70c.** 6 for \$1.35.

SEDUM BRILLIANT.* Stonecrop. Plant growing about eighteen inches high with light green glaucous foliage, large heads of showy bright rose colored flowers in late autumn. 25c each. 3 for 70c. 6 for \$1.35.

SEDUM GLAUCUM.* A prostrate plant with blue green foliage. Small white flowers. Very good rock plant. 25c each. 3 for 70c. 6 for \$1.35.

SEDUM LYDICUM.* The gray green foliage turns red in winter. White flowers, plant prostrate. Excellent for rock garden. 25c each. 3 for 70c. 6 for \$1.35.

SEDUM STOLONIFERA.* Running Stonecrop. This variety is of creeping habit. Dull rose colored flowers. The leaves turn a beautiful crimson in the fall. 4 to 5 inches. 25c each. 3 for 70c. 6 for \$1.35.

SHASTA DAISY, ALASKA. Large white flowers with yellow center produced profusely nearly all summer. 12 to 18 inches. Excellent for cutting. A general favorite. See cut top of page. 25c each. 3 for 70c. 6 for \$1.35.

SHASTA DAISY, WHITE SWAN. This is a very fine, double flowered variety of Shasta Daisy. Its blooms are somewhat larger than Pyrethrums, pure white and fully double. Very attractive in the garden and excellent for cutting, having long stems. Also known as the Double White Memorial Day Lily. 35c each. 3 for \$1.00. 6 for \$1.90. STATICE LATIFOLIA. Sea Lavender or Lavender Baby's Breath.

Myriads of lavender colored tiny flowers resembling the general form of the Baby's Breath. Blooms August and September. Leathery, dark green leaves close to ground. Showy in the garden and splendid as a cut flower. May be dried for winter use. 35c each. 3 for \$1.00. 6 for \$1.90.

THERMOPSIS. Caroliniana. A lovely plant whose general appearance is that of a yellow lupine. Grows about 2 feet high. Blooms in June and July with 6 to 12 inch racemes of yellow, pea-like flowers. Rich green foliage. 50c each. 3 for \$1.45.6 for \$2.80.

THYMUS SERPYLLUM COCCINEUM.* A dwarf growing creeping plant with fragrant foliage. Covered with brilliant scarlet colored flowers during June and July. 4 to 6 inches. 25c each. 3 for 70c. 6 for \$1.35.

TROLLIUS. Gold Quelle. A glorified Buttercup, leaves and flowers resembles the Buttercup. Large, orange-yellow blossoms. 18 to 24 inches. May to August. Grows well in a moist, semi-shaded position. 40c each. 3 for \$1.15. 6 for \$2.20.

TUNICA SAXIFRAGA.* Coat Flower. Small pink flowers in the greatest profusion most all summer. 6 inches high. Fine for rockery. 25c each. 3 for 70c. 6 for \$1.35.

VALERIANA OFFICINALIS. Hardy Garden Heliotrope. Showy heads of rose-tinted white flowers with heliotrope fragrance. 3 to 4 feet. June and July. Loves moisture. 25c each. 3 for 70c. 6 for \$1.35.

VERONICA RUPESTRIS.* A fine rock plant growing 3 to 4 inches high; thickly matted, deep green foliage, hidden in early June under a cloud of bright blue

flowers. Does well in light shade and is also a good ground cover for shrub borders. 25c each. 3 for 70c. 6 for \$1.35.

VERONICA SPICATA,* Speedwell. Spikes of violet-blue flowers in June and July. Gives splendid color to the border. See cut. 18 inches. 25c each. 3 for 70c. 6 for \$1.35.

each. 3 for 70c. 6 for \$1.35.

VINCA MINOR.* Trailing Myrtle. A trailing plant, splendid for covering ground under trees and shrubs. Delightfully softens the effects of the rocks in the rockery. Flowers are blue resembling a small violet. 25c each. 3 for 70c. 6 for \$1.35.

YUCCA FILAMENTOSA. Adam's Needle. The creamy white flowers are bell-shaped and drooping. Produced on tall stems up to 4 or 5 feet. The foliage is sword-like and woody. July. See cut. 25c each. 3 for 70c. 6 for \$1.35.

Yucca, Adam's Needle Milky white

Viola Cornuta — Jufted Pansies

The flowers resemble the common Pansy in form, though not quite so large. Of very free flowering habit, they bloom from April until October and constitute a most colorful addition to the garden. The following varieties are among the very best:

APRICOT.* Beautiful rich apricot shade, tinged orange toward the center. 25c each. 3 for 70c. 6 for \$1.35.

ARKWRIGHT RUBY. Wonderful large rounded flowers of ruby crimson with terra cotta and darker markings. Fragrant. 25c each. 3 for 70c. 6 for \$1.35.

JERSEY GEM.* Pure, rich bluish-purple, slightly perfumed flowers. A most attractive variety. 25c each. 3for 70c. 6 for \$1.35.

LUTEA.* The flowers are a bright golden yellow, contrasting beautifully with the darker shades of other varieties. **25c** each. 3 for **70c**. 6 for \$1.35.

PERFECTION. Light blue flowers in abundance all summer, very lovely planted with the yellow sort. 25c each. 3 for 70c. 6 for \$1.35.

SCOTCH BORDER.* The flowers are a perfect riot of color, combining practically every shade. 25c each. 3 for 70c. 6 for \$1.35.

Delicious Fruits

HE thrifty housewife has long known the savings made when fruits are grown at home. There is something about home-grown fruit that is different. It tastes better than any other. There is no investment that can be made that will bring as satisfactory returns as the purchase of fruit trees and berry bushes. Fruit trees are attractive when in bloom as well as when loaded with luscious fruit, Apples are a healthy fruit and may be had from August until Spring if a proper selection of varieties is made.

POSTAGE—We recommend shipping fruit trees by freight or express. The 3 to 4 foot size and the 4 to 5 foot size may be shipped by parcel post, however. Figure weight at 3 pounds each for the 3 to 4 foot and 4 pounds each for the 4 to 5 foot. Please refer to parcel post rate table on page 37 to figure amount of postage to include with order.

Small fruits such as grapes, strawberries, currants, etc., can be shipped parcel post if desired. Please note weights given under each item.

7	to	8	feet extra fine for early bearing	1.50	each.	15.00	dozen

ANOKA. A very early and heavy bearer. A medium sized tree, with fruit in quality equal to the Duchess. Early August.

BEACON. Originated at the University Plant Breeding Farm at Excelsior, Minn. A fine new apple hardy and of high quality. Ripens mid-August about the same season as Duchess. Will keep three or four weeks after picking. Late August.

DUCHESS. An apple of large size and beautifully colored red. Bears when young and abundantly. Excellent quality. Ripens very early. Mid August.

HARALSON. Originated by the Minnesota Fruit Breeding Farm. Solid red color of fine quality for cooking and eating. Tree bears when young. An all-winter keeper. One of the best winter apples for home use or market.

McINTOSH. Bright red fruit, fine flavor, Excellent quality. Keeps

NORTHWEST GREENING. Fruit is green, turning yellow as matures. Firm and of large size. Good winter keeper. Fi cooking apple for late winter and spring.

PATTEN'S GREENING. Fruit large, green; flesh white, excellent for cooking and eating during October and November.

PRAIRIE SPY. This tree was originated and recently named by the Minnesota Fruit Breeding Farm. The fruit is carmine red, keeps all winter, is the finest flavored winter apple grown. The tree is hardy, productive and a good grower. Not recommended for planting much north of the Twin Cities as the season is not long enough to be sure to mature the fruit.

RED WING. Fruit is superior in size, beauty, quality, and keeps all winter. Extremely hardy.

WEALTHY. Fruit of the best quality. Bears when very young. A good market variety. The favorite apple for this section. September to December.

Hardy Crab Apples

See Prices Under Apples Except for Flame

DOLGO. A handsome tree with light green foliage and attractive red fruit. Fruit jells easily, a red jelly of excellent flavor. Very vigorous. The most dependable crab. Late August.

HOPA CRAB. See page 21.

VIRGINIA. Strong-growing, free from blight. Red fruit of medium size. Good for eating, cooking or jelly. Early September.

WHITNEY. Very hardy and productive. Fruit red in color. Flesh of fine quality, Fine for eating or for sweet pickles. Early August.

Prairie Spy Apple

Hardy Minnesota Plums

5 to 6 feet	75	each.	7.50 per dozen
6 to 8 feet	. 1.25	each,	12.50 per dozen

FIEBING. Introduced by Mr. Chas. Haralson, Excelsior, Minn. It is hardy and of vigorous growth, producing a regular crop of unusually large, fine quality red plums. Should be included in every home and commercial orchard. Late September.

LA CRESCENT. The apricot flavored plum. Tree vigorous and productive. Fruit medium sized. Clear yellow, tender, fine grained flesh. Semi-free stone, juicy and sweet. Early August.

MONITOR. Tree vigorous and productive. Fruit large, almost round, color dark red, quality good. Late August.

SUPERIOR. A new, deep red plum of high quality. Fruit is large, with small pit and ripens early. We recommend this new variety. Mid August.

SURPRISE. An attractive red plum of good quality, especially valuable for pollenizing other varieties. August.

DNKA. A fine-flavored, juicy plum of large size, good keeper and good market variety. Red. Mid August.

UNDERWOOD. Fruit attractive red with fairly firm, juicy flesh, small pit, clingstone, hangs well and ripens over a long period. A splendid variety. Early August.

Pears

NO one need hesitate to plant Pear trees in Minnesota. All who saw the Minnesota State Pear Exhibit at the Minnesota State Fair were convinced that Pears of good size and fine flavor can be grown in abundance in Minnesota. The following varieties are dependable.

MENDEL PEAR. Originated at New Ulm, Minnesota. Fruit is of good size, about the same at Bartlett, juicy and of fine

 good size, about the same quality. Early October.

Parker Pear (Minnesota No. 1)

Grapes

GRAPES NEEDING NO WINTER PROTECTION

Parcel Post Weight: 3/4 Pound Each

ALPHA. Fruit is larger than Beta and of good quality. Perfectly hardy without covering.\$0.25 each; \$2.50 per dozen35 each; 3.50 per dozen

BETA. The Beta is perfectly hardy, a rapid grower, early bearer, good sized fruit, bunches often weighing one-half to one pound each, and of fair quality. Well adapted for covering porches, fences, etc., or will do well planted out by itself. A fine grape for jelly or grape juice. See picture.

2 year. \$0.25 each; \$2.50 per dozen 3 year. 3.50 per dozen

GRAPES HARDY WITH WINTER PROTECTION

2 year \$0.30 each; \$3.00 per dozen 3 year 40 each; 4.00 per dozen

AGAWAM. Dark red, bunch and berries very large. CAMPBELL'S EARLY. Round fruit, flesh rather firm but tender; quality rich and sweet.

CONCORD. A well-known black grape, medium size, early and of good quality.

MOORE'S EARLY. Black, earlier, larger and better quality than Concord, but not quite as productive.

POCKLINGTON. White, bunch and berries large.

Cherries

EARLY RICHMOND. Red, acid, excellent for cooking or drying. Early July. OKA CHERRY. Immensely productive, bearing next year after setting into orchard. Heavy, annual bearer of large, deliciously flavored fruit, having rich purple-red skin, flesh and juice unexcelled for canning, jam or jelly. Tree is very hardy; is of dwarf habit, making it easy to gather the fruit. Because of its early bearing and excellent fruit it is certainly a favorite, and we recommend it very highly. and excellent filt to see the second second

Blackberries

Parcel Post Weight: 1/4 Pound Each

ANCIENT BRITTON. A popular market variety. The fruit is of fine quality, pro-

JCRETIA. This is one of the low-growing, trailing blackberries. Should be mulched to keep the berries off the ground. Fruit large and rich. The earliest blackberry.

[34]

Wayzata Everbearing Strawberries

Black Raspberries

GREGG. A late fruiting black raspberry. Berries large and of fine flavor.

Per dozen. \$1.50 Per 25...\$2.50 Per 100...\$6.00

Red Raspberries

CHIEF. The plant is very vigorous, stocky, very hardy. Season early, one week ahead of Latham. Fruit attractive bright red, firm, quality very good. This variety in some sections has outyielded Latham.

1st class plants: \$1.00 per dozen; \$1.55 per 25; \$3.65 per 100; \$26.55 per 1,000.

Parcel post weight: 1/4 lb. each.

Extra heavy selected plants for home gardens: \$1.50 per dozen; \$2.75 for 25; \$6.50 per 100.

Parcel post weight: 1/3 pound each.

LATHAM. Introduced by the Minnesota Fruit Breeding Station. It is by far the most popular variety grown, both for market and the home garden. The bush is vigorous and hardy without winter protection; bears a heavy crop of extra large fruit of the best quality. The largest and best variety for canning.

lst class plants: \$1.00 per dozen; \$1.75 for 25; \$4.15 per 100; \$29.50 per 1,000.

Parcel post weight: 1/4 lb. each.

Extra heavy selected plants for home gardens: \$1.50 per dozen; \$2.85 for 25; \$7.00 per 100.

Parcel post weight: 1/3 pound each.

Currants

Parcel Post Weight: 2 Pounds Each

RED LAKE. A new red currant originated at the Minnesota Plant Breeding Farm. It is exceptionally large and of fine flavor. This variety has been tested for several years and has proven to be the largest and finest currant for both home and market use.

STEWART'S SEEDLING. Beautiful, light red fruit of large size and good quality. Bush a strong and healthy grower. Produces large quantities of fruit; excellent flavor. A profitable variety for market purpose.

WHITE GRAPE. The best white. Large, mild flavored, good for table.

2 year No. 1............\$0.30 each; \$3.00 per dozen

Strawberries

ALL varieties offered below have perfect flowers and will bear fruit if planted alone.

Parcel Post Weight: 3 Pounds Per 100

EVERBEARING

GEM. The berries are large, bright red and roundish in shape.

Of good flavor and quality. It is a good market sort as the berries are firm and handle well without injury. Unlike most everbearers, this variety is a good plant maker.

25 for.

\$1.00

PROGRESSIVE. A very popular everbearing strawberry. The fruit is rather small but produced abundantly. Quality fair.

25 for. \$1.00

WAYZATA. This variety has proven far superior to all other strawberries at our nursery. The fruit is large, beautifully colored and the flavor is positively delicious. The plants are large, vigorous, healthy and splendid producers. Whether for home or market purposes, Wayzata is now commonly accepted as the best everbearing strawberry known.

Ruby Rhubarb

Spraying Materials

SPRAYER (To Apply Liquids)

We offer and recommend a one-quart Mason jar sprayer. It is strongly built and the double siphon tube gives a large, dense, fog-like spray. Price, **75c** each. Weight for shipping, 3 lbs.

BLACK LEAF 40

A highly recommended spray to kill plant lice and other suckling insects which cause the leaves to lose their color and curl up. Kills by coming into contact with the body of the insect. Directions on bottle.

1-oz. bottle......\$0.3

DRY LIME SULPHUR

KOLO DUST

ARSENATE OF LEAD (Powdered)

Kills all insects which eat the leaves, by poisoning them. May be dusted on dry or applied in liquid form. Directions are printed on the can.

One-half pound can....\$0.25 One pound can......\$0.40

DUSTER (To Apply Powders)

To combat certain insects it is best to use a dust spray. The duster we offer, though inexpensive, is strongly built and will operate successfully with all insect powders. Use for spraying the listed Kolo Dust on evergreens, phlox, etc. to kill the red spider. Price, **45c** each. Weight for shipping, 2 lbs.

MARSH HAY (For Winter Protection)

Perennial flowers, roses and strawberries should be covered with marsh hay in late fall to protect them from alternate freezing and thawing, which causes winter injury. Marsh hay is practically free from foul weed seeds, which most upland hay contains. It is also easy to clear off the beds in the spring. One bale will cover about 200 square feet of garden. For sale during October and November. The use of leaves is not recommended as they usually mat down over the plants, preventing any circulation of air.
